Numerous clinical trials representing more than 13,000 patients-years¹

A well-established efficacy and safety record¹

A positive impact on men’s confidence and self-esteem and partner satisfaction²

Please refer to the SmPC before prescribing VIAGRA 25mg, 50mg or 100mg.

Presentation: Blue film-coated, rounded diamond-shaped tablets containing sildenafil citrate equivalent to 25mg, 50mg and 100mg sildenafil. The tablets contain lactose.

Indications: Erectile dysfunction. Sexual stimulation is required for efficacy. Dosage: Adults: 50mg approximately one hour before sexual activity. Adjust dose based on efficacy and tolerance. Maximum dose is 100mg. One dose per day is the maximum recommended. If taken with food, the onset of activity may be delayed. Elderly: Dosage adjustments are not required in elderly patients. Hepatic impairment, severe renal impairment: 25mg initial dose should be considered; adjust dose based on efficacy and tolerance. Children under 16 years: Not indicated. With CYP3A4 inhibitors: a starting dose of 25mg should be considered, except for ritonavir (see Warnings and precautions). With alpha-blockers: Patients should be stable on alpha-blocker therapy prior to initiating sildenafil treatment; starting dose of 25mg should be considered. Contra-indications: Co-administration with nitric oxide donors (such as amyl nitrite) or nitrates in any form; patients for whom sexual activity is inadvisable (e.g. patients with severe cardiovascular disorders); patients with vision loss in one eye due to non-arteficial anterior ischaemic optic neuropathy (NAION); severe hepatic impairment; hypotension; recent stroke or myocardial infarction; known hereditary degenerative retinal disorders; hypersensitivity to sildenafil or to any of the excipients.

Warnings and precautions: A medical history and physical examination should be undertaken to diagnose erectile dysfunction and determine potential underlying causes. Cardiovascular status should be assessed, as sexual activity is associated with cardiac risk. Although their clinical relationship to Viagra has not been established, serious cardiovascular events have been reported (see Side-effects), mostly in patients with pre-existing cardiovascular risk factors and many occurring during or shortly after intercourse. Sildenafil has vasodilator properties, resulting in mild and transient decreases in blood pressure. Prior to prescribing sildenafil, physicians should carefully consider whether their patients with increased susceptibility to vasodilators could be adversely affected, especially in combination with sexual activity. Sildenafil potentiates the hypotensive effects of nitrates. Caution advised in patients with anatomical deformation of the penis (such as angulation, cavernosal fibrosis or Peyronie’s disease) or predisposed to priapism (such as sickle cell anaemia, multiple myeloma or leukaemia) and in patients with bleeding disorders or active peptic ulceration. Not recommended in combination with other treatments for erectile dysfunction. As with other PDE5 inhibitors, visual defects and NAION cases have been reported with the intake of sildenafil. In case of sudden visual defect, the patient should stop taking VIAGRA and consult a physician immediately. Caution is advised when sildenafil is co-administered with alpha-blocker, as coadministration may lead to symptomatic hypotension in a few susceptible individuals (see Drug Interactions). This is most likely to occur within 4 hours post sildenafil dosing. To minimise the potential for developing postural hypotension, patients should be hemodynamically stable on alpha-blocker therapy prior to initiating sildenafil treatment and a starting dose of 25mg should be considered (see Dosage); physicians should advise patients what to do in the event of postural hypotensive symptoms. Co-administration of sildenafil with ritonavir is not advised. The film coating of the VIAGRA tablet contains lactose. VIAGRA should not be administered to men with hereditary problems of galactose intolerance, Lapp lactase deficiency or glucose-galactose malabsorption. Not for use by women.

Contra-indications: Co-administration with nitric oxide donors (such as amyl nitrite) or nitrates in any form; patients for whom sexual activity is inadvisable (e.g. patients with severe cardiovascular disorders); patients with vision loss in one eye due to non-arteficial anterior ischaemic optic neuropathy (NAION); severe hepatic impairment; hypotension; recent stroke or myocardial infarction; known hereditary degenerative retinal disorders; hypersensitivity to sildenafil or to any of the excipients.

Interactions: In combination with inhibitors of CYP3A4 e.g. ketoconazole, erythromycin, cimetidine, a 25mg starting dose should be considered. Alpha-blockers - simultaneous co-administration may lead to symptomatic hypotension in a few susceptible individuals – See Dosage and Warnings and precautions. Ritonavir – see Warnings and precautions. Potentiates the hypotensive effects of nitrates (see Contra-indications). Nicorandil – Due to its nitrate component it has the potential to have serious interaction with sildenafil. No potentiation of the increase in bleeding time caused by acetyl salicylic acid (150mg) or the hypotensive effects of alcohol. No data on non-specific phosphodiesterase inhibitors such as theophylline or dipyridamole. Side-effects: Clinical study experience: The most commonly reported side-effects were flushing and headache. Other side-effects reported were dizziness, dyspnea, altered vision (increased perception of light, blurred vision), chromatopsia (mild and transient, predominantly colour tinge to vision), nasal congestion, palpitation. Dyspnea and altered vision more common at 100mg. Muscle aches when sildenafil administered more frequently than recommended. Post marketing experience: Hypersensitivity reactions. Eye pain, red eyes/bloodshot eyes. Cardiac disorders (tachycardia, ventricular arrhythmia myocardial infarction, unstable angina, sudden cardiac death,), Vascular disorders (hypotension (see Warnings and precautions and Interactions), hypertension, epistaxis, syncope, cerebrovascular haemorrhage, transient ischaemic attack). Vomiting. Skin rash. Prolonged erection, priapism. NAION, retinal vascular occlusion and visual field defect have been reported with an unknown frequency. Ear disorders (Sudden decrease or loss of hearing).

Welcome Message

On behalf of the Executive Committee of the European Society for Sexual Medicine and the Executive Committee of the International Society for Sexual Medicine, we want to extend to everyone interested in sexual medicine a cordial invitation to the joint meeting of our two societies which will be held from 7-11 December 2008 in Europe’s capital city, Brussels. It will be the Christmas season in Brussels and the city, with its rich cultural history and present importance as the seat of the European Union, is sure to be shining with the spirit of this special season.

We anticipate that this will be the largest meeting ever to have occurred in the history of sexual medicine. The Scientific Committee of the meeting has prepared a comprehensive program reflecting the depth, breadth and diversity of sexual medicine with an emphasis on the newest and most innovative developments in this field. As sexual medicine evolves and expands, it discovers new horizons which interface with other healthcare subspecialties, such as HIV medicine, endocrinology, oncology, cardiovascular medicine and the neurosciences. These areas of new activity in sexual medicine will also be explored in several sessions during the meeting.

We encourage you to join us in Brussels to learn about and contribute to the science of sexual medicine and to enjoy the vibrant Belgian culture in the warm company of friends and colleagues, old and new, from around the world.

Congress Documentation
The ESSM and ISSM will offer all participants the possibility to view parts of the scientific program online through a web-based system from the website. Therefore most of lectures will be filmed during the congress, which include all Master Lectures, Interactive Sessions, Instructional Courses, Point Counterpoint Sessions, Round Tables and Video Session.

Congress Information System
Participants can benefit from the web based ISSM/ESSM Congress Information System CO CONGRESS ONLINE® on-site at the Internet centre in the exhibition hall. At www.issmessm2008.info participants can set up and print out a personal congress program schedule. CO CONGRESS ONLINE® offers an extensive congress service and provides you with information on:
- Updated scientific program
- Program by day
- Program by formats
- Program search
- List of participants (who is who)
- List of exhibitors and sponsors
- General congress information
- City of Brussels
- Hotel accommodation
- News
- Private mailbox

Speakers Centre
The speakers centre and lounge is located on level 1 of the Auditorium 2000. Speakers are asked to hand in their CD ROM or USB stick, containing the PowerPoint presentation (IBM format or compatible, no multisession) preferably one day before their presentation but at the latest 90 minutes prior to the presentation. The presentation will be transferred to the central congress server and will be available afterwards on a special congress notebook in the hall of the presentation. Due to time and technical reasons we kindly ask the speakers not to use their own notebook. Several PC working stations are provided in the speakers’ centre where speakers can also work on their PC charts in a quiet area. Technical staff will be glad to assist.

Opening hours Speakers Centre
Sunday, 7 December 2008  08:00 - 18:00 hours
Monday, 8 December 2008  07:30 - 17:30 hours
Tuesday, 9 December 2008  07:00 - 17:00 hours
Wednesday, 10 December 2008  07:00 - 17:00 hours
Thursday, 11 December 2008  07:30 - 12:30 hours

ISSM or ESSM Membership Issues
For ISSM or ESSM membership issues and any other ISSM or ESSM business, please contact our ISSM or ESSM booth which is situated in the exhibition hall 10.
Technical Exhibition
A major technical exhibition will be organised in hall 10 of the Brussels EXPO next to the main meeting rooms. Coffee bars and catering stations for lunch will be located in the technical exhibition. For further information, please see page 52 (List of exhibitors).

Opening hours Exhibition Area
Monday, 8 December 2008 09:00 - 17:30 hours
Tuesday, 9 December 2008 09:00 - 17:30 hours
Wednesday, 10 December 2008 09:00 - 17:30 hours

Poster Exhibition
All posters will be sited in the exhibition hall 10 of the congress venue. All moderated and unmoderated posters will be displayed during the whole conference. The poster exhibition is open to all participants.

Opening hours Poster Exhibition
Monday, 8 December 2008 09:00 - 17:30 hours
Tuesday, 9 December 2008 09:00 - 17:30 hours
Wednesday, 10 December 2008 09:00 - 17:30 hours

Poster CD ROM
A CD ROM including all poster presentations will be produced and all delegates will receive the poster CD ROM by post after the congress. All poster authors who have not yet submitted their poster are kindly asked to do so electronically either on CD ROM or on USB stick at the speakers centre.

Historical Exhibition
Since ancient times the phallus has been regarded as a symbol of the giver of life and associated with the creator of the universe. The phallus is the symbol of the creator in man and its worship is found at the origin of all religions. The exhibition brings an illustration of the artistic and cultural creations of the phallus in the history of mankind and is based on the book The Phallus in Art and Culture by Dr. Johan J. Mattelaer.

Internet Centre
Several Internet terminals are available to all delegates at the exhibition area of hall 10. The Internet centre is accessible according to the opening hours of the exhibition

By courtesy of

Wireless LAN
Wireless LAN is complimentary available for all congress delegates at the congress venue Brussels EXPO.

Press
The press centre is set up in meeting room 6 in the exhibition hall 10.

Opening hours Press Centre
Monday, 8 December 2008 09:00 - 17:30 hours
Tuesday, 9 December 2008 09:00 - 17:30 hours

Lost and Found
A lost and found service is available at the Registration Counter, located in the foyer of the Auditorium 2000.

Mobile Phones
Participants are kindly requested to keep their mobile phones turned off while attending the scientific sessions in the meeting rooms.

Program Changes
The organisers cannot assume liability for any changes in the congress program due to external or unforeseen circumstances.

Insurance
The congress fee does not include insurance. All participants are advised to arrange for their own insurance. Health and accident insurance is recommended and has to be purchased in your country of residence. The organisers will not be responsible for a loss or damage of personal belongings.
**Car Park**
The Brussels EXPO provides the car parking H with 1,100 parking spaces next to Auditorium 2000. Parking fees are not included in the registration fee.

**Taxis**
Taxis are available upon demand in front of the Auditorium 2000 of the Brussels EXPO. Please contact the Registration Counter for a taxi.

**Currency**
The Euro is the official currency in Brussels. Exchange of foreign currency is available at the Brussels Airport and at most hotels, banks and exchange offices throughout the city.

**Electricity**
Electricity is supplied at 220 to 230V 50Hz.

**Transportation between Airport and City / City and Brussels EXPO**
The International Airport of Brussels is linked by public transportation to the city centre of Brussels. From the city centre, the metro line 1A Roi Baudouin goes directly to the station Heysel, where the Brussels EXPO Exhibition and Convention Centre is situated.

**Public Transportation Pass**
Participants will receive a public transportation pass at the congress registration counter in exchange for a voucher, which is included in the delegates’ documents. This pass is valid for all public transportation during the congress period, i.e. from Sunday, 7 December 2008 through Thursday, 11 December 2008. Most of the hotels available are located within 20 - 30 minutes transport time from the congress venue and there is an easy access to buses and underground transport in the city.
General Information

Belgium
Well situated between France and The Netherlands, the Kingdom of Belgium encompasses all the best that Europe has to offer. Within the span of one day you can take a romantic cruise down a canal in Bruges, shop for diamonds in Antwerp, enjoy waffles on the beach in Oostende and explore a fine art museum in Brussels. A dense train network connects all of Belgium and makes navigation simple and travel comfortable.
Belgium became independent from the Netherlands in 1830. In the past half century it has been developed into a modern, technologically advanced European state and member of NATO and the EU. Tensions between the Dutch-speaking Flemings of the north and the French-speaking Walloons of the south have led in recent years to constitutional amendments granting these regions formal recognition and autonomy. Belgium is both multicultural and multilingual (Dutch, French and German). Flanders in the north, a flatland criss-crossed by canals, is proud of its medieval art cities, Antwerp, Bruges and Ghent. To the south in Wallonia, you will find the rolling hills of the Ardennes, countless castles, and the cities of Liege, Namur, and Tournai. The city of Brussels is one of the world’s great cosmopolitan capitals, home to both the European Union and NATO, as well as a wealth of international trade and finance companies.

City of Brussels
As the ultimate European city, Brussels hosts the headquarters to the EU (European Union) and NATO; it is often referred to as The Capital of Europe. It is an international metropolis - a mosaic of languages, cultures, and traditions. Brussels and its inhabitants are known for being inimitable, friendly and profoundly human. Brussels is more than 1000 years old. Today the name Brussels stands for an agglomeration of 19 communes forming one of the three Regions of the federal Belgian state; the capital of the Kingdom of Belgium; the headquarters of the French and Flemish Communities. The city is the bilingual capital of Belgium, meaning both French and Dutch are its official languages and street names and traffic signs are always in these two languages. In this cosmopolitan city many different cultures live together and different languages can be heard. This liveliness and international flair is, of course, intimately related to its role as a crossroad for all of Europe.
The same variety and contrast can also be seen in the different architectural styles that can be found in Brussels, the former capital of the medieval Duchy of Brabant. Gothic cathedrals and churches are next to - and sometimes in stark contrast with - gracious classical facades like the buildings around the Royal Square (Place Royale - Koningsplein), or beautiful art nouveau and art deco houses. The heart of Brussels and the place to start getting to know the city is the Grand Place (Grote Markt). This historic market square with its splendid guild houses and the impressive Gothic beauty of the Town Hall, is widely considered to be one of the most beautiful town squares in Europe.
Social and Supporting Program

Presidents’ Addresses, Opening Ceremony and Welcome Reception
Sunday, 7 December 2008, 18:00 - 20:30 hours

The Opening Ceremony will be held in the Auditorium 2000 of the Brussels EXPO Exhibition and Convention Centre.

The Welcome Speeches of the International and European Society for Sexual Medicine and the Award Ceremony will be accompanied by a bright and delightful musical entertainment.

Don’t miss this colorful medieval festival originally taking place every year on Brussels Grand’ Place. Brussels’ Ommegang Pageant is an historical evocation of the festival held in 1549 for Charles the Fifth, his son Don Philip, infant of Spain and Duke of Brabant, and his sisters, Eleanor of Austria, Queen of France and Mary of Hungary.

The origin of this famous procession (= Ommegang) was indeed the expression of religious fervor supported by a military authority. Gradually the Ommegang became a great town event. Civil authorities, the crafts, chambers of rhetoric and the guilds took their place in front of the clergy. It became the magnificent pageant celebrated through the centuries to modern times.

Join the Ommegang as the historical portrait of the Belgian country and the role it has played at all levels: history, economy, the arts and culture.

At the end of the Opening Ceremony all congress delegates and accompanying persons are invited to join the ISSM ESSM Welcome Reception in the foyers of the Auditorium 2000 with local finger food and drinks.

Supporting Program
Tours available will be assigned on a first-come, first-served basis. We kindly ask you to make your reservation in advance. All tours will start and end at the Brussels EXPO Exhibition and Convention Centre or at a meeting point in the city centre of Brussels.

Panoramic Tour of Brussels
Monday, 8 December 2008, 14:00 - 18:00 hours
Price per person: € 55,00

This tour gives an impressive view of Brussels’ major sights such as the Palace of Justice, the Royal Palace at the Park, the EU district, Cinquantenaire Park, Sablon Place with its Cathedral over to the North district of Brussels and on to the Royal Palace in Laken. Guests can marvel at the beautiful park of 1,500 hectare with a Japanese Tower and the Chinese Pavilion. Not to forget the landmark of the Atomium, the last surviving monument of the 1958 World Exposition held in Brussels. For registered accompanying persons this tour is included.

Format Descriptions

Master Lecture/Special Lecture
Each lecture of 30 minutes will be given by a distinguished and renowned expert and will be devoted to a specific topic of major interest.

Round Table
These sessions, usually lasting 90 minutes, focus on a particular topic and present the very latest data related to it. The round table will include up to four papers and time for discussion.

Point Counterpoint Sessions
These sessions address one controversial issue of a topic. The respective opponents are allowed to give a brief introduction followed by a discussion on the arguments proposed.

Instructional Course
These sessions present a detailed account of a chosen topic. They provide learning experiences that actively involve participants giving them an opportunity for informal exchange with the faculty.

Interactive Session
This session will last 90 minutes and presents case discussions with a questioner and a panel of experts. Attendees will be given the possibility to interact actively via a voting system with the faculty of the session.

Video Surgery Course
A panel of selected experts will present surgical videos (10 to 15 minutes) showing different techniques and approaches and allow time for discussion with the participants.

Podium Session
Podium Sessions will present the best papers accepted by the Scientific Committee. They focus on specific topics presenting the very latest findings in the field. Each session will last 90 minutes and will consist of 10 presentations per session (6 min. presentation; 3 min. discussion).

Moderated Poster Session
Moderated presentation of selection of latest research findings or important ongoing research by posters grouped by topic and presented in a 90-minute session. Each session will consist of a maximum of 15 presentations (3 min. presentation; 3 min. discussion).

Guided Poster Tour
The tour of the unmoderated posters will be guided by senior clinicians and researchers who will point out the important features of selected posters and/or posters. Authors will be encouraged to attend the guided tour so that they can be present when their own posters are discussed.

Symposia organised by the Industry
Symposia are organised by the Industry in consultation with the Scientific Committee will be presented from Monday, 8 December 2008 until Wednesday, 10 December 2008 during lunchtime and in the late afternoon.

CME (Continuing Medical Education)
The Joint Meeting is seeking for accreditation by the European Council for Continuing Education (EACCME) to provide continuing medical education (CME) credits to physicians.

The EACCME is an institution of the European Union of Medical Specialists (UEMS). EACCME credits are recognised Europe-wide and in North America.

EACCME credits can be exchanged for their national equivalent by contacting the respective National CME authority. EACCME credits are recognised by the American Medical Association (AMA) towards the Physician’s Recognition Award (PRA).

In addition this congress has been submitted for CME accreditation by law of various European countries. Physicians will be accredited accordingly.
ICT / Internet and Journal Publishing Workshops

During the meeting, several ICT/Internet and journal publishing workshops will be offered. By participating you will be able to learn about Internet, Google, PowerPoint and computers’ security as well as best practices in authorship and peer review.

ISSM Successful Journal Publishing - Best Practices in Authorship and Peer Review

Jason Roberts, PhD
Managing Editor, The Journal of Sexual Medicine
President, International Society of Managing and Technical Editors

* Best Practices in Authorship
This short course will provide an overview of the peer review process, outline the critical components of a good paper, and summarize how authors can improve their chances of publication. Attendees will also learn about publication ethics and understand how journals are increasingly requesting supporting material in their efforts to enhance their ethical transparency. At the conclusion of the course authors will have learned several practical tips that can be applied universally to all their journal submissions. Current trends in peer review will be reviewed and performances by all journals regarding an effective evaluation of a manuscript will be benchmarked. Attendees will thus gain a better understanding of how their manuscripts will be assessed by reviewers while considering, and learning to anticipate, great variances between journals in the management of peer review. The course will also examine issues of composition that typically undermine a paper stress the importance of developing an ordered paper as directed by various publication guidelines such as CONSORT and STARD. Finally, attendees will gain knowledge of increasingly stringent ethical standards employed by a growing list of journals. Ethical issues will be identified, best practice approaches to ensuring compliance will be explained and the consequences of ethical transgressions will be stated. Attendees will leave with a summary document on the essential elements of a well-written paper. They will also receive a resource sheet that provides references and links covering all the major topics considered in the short course. The Journal of Sexual Medicine will also supply attendees with information on the types of manuscripts it is seeking, both in terms of style and content as well as an outline of its standards that must be met before a paper is accepted for publication.
**Best Practices in Reviewing a Manuscript**

This course will provide individuals with important assessment tools to use in the evaluation of a manuscript. Opening with a discussion on the significance of effective peer review (and highlighting the problems when peer review proves inadequate) the course will address expectations journals place on reviewers, the responsibilities reviewers have to authors and editors alike and ethical considerations ranging from the performance of the reviewer through to assessing manuscripts for bias. The course is directed to experienced and novice reviewers alike.

Within the framework of the new The Journal of Sexual Medicine Guidelines for Reviewers the course will recommend the most effective organization of a strong review, examining all the core components editors seek. The remainder of the course will outline specific critiques related to methodology and composition that provide an effective evaluation of a manuscript.

Attendees can expect to leave the course with an enhanced understanding of the role of peer review in journal publication and having acquired several tools to help them in the future assessment of manuscripts that can be universally applied across journals. In reviewing the criteria of assessment, attendees can, logically, apply such standards to composition of their own manuscripts, becoming more effective critics of their work. A resource sheet containing references and links will be supplied to attendees along with a copy of the new “The Journal of Sexual Medicine” Guidelines for Reviewers.

Wouldn’t it be wonderful if you always had the best information to help you take care of yourself?

If you could count on having reliable answers for those times when your health is a concern?

If you could be assured breakthrough medicines would continue to be sought?

We think that would be wonderful, too. And we’re working to make it happen. Your good health is our passion.

Because 64% of men with Erectile Dysfunction also have hypertension, dyslipidemia and diabetes.¹

- Erectile Dysfunction is a major symptom of Testosterone Deficiency Syndrome.²
- Erectile Dysfunction and Testosterone Deficiency Syndrome share the same underlying medical conditions. ³⁻⁵
- Professional help is necessary to diagnose and treat Erectile Dysfunction and Testosterone Deficiency Syndrome, and detect any underlying problem.

The conditions, Erectile Dysfunction (ED) and Testosterone Deficiency Syndrome (TDS) have an important influence on a patient’s health and general well-being.⁶,⁷ There is strong scientific evidence that a vicious circle exists between ED, TDS and medical conditions such as hypertension, dyslipidemia and diabetes.⁵⁻² One aim in the management of these patients is to break this vicious circle. Our products Levitra®, Nebido® and Testogel® provide treatment choice for men’s healthcare professionals. Bayer Schering Pharma offers men’s healthcare professionals the first evidence-based approach to successfully treat patients with ED and/or TDS including those with underlying medical conditions to successfully restore the man.
