Welcome Address

Dear Members, Colleagues and Friends,

The European Society for Sexual Medicine together with the European Federation of Sexology, the Turkish Society of Andrology and Turkish Association for Cognitive and Behavioral Psychotherapies give a warm welcome to all congress participants. For the first time in their history, ESSM and EFS have organized their annual/biannual meetings as a joint congress. About two years ago, over a dinner, the two presidents of the ESSM and EFS gave birth to this joint congress through which our dreams and visions came true.

The advancing science of Sexual Medicine is mirrored in the scientific programs of the annual ESSM congresses, and both the country and the venue hosting this event traditionally contribute to the success of this congress. For four millennia, Istanbul as one of the world’s largest cities has been a cradle of many civilizations, a melting pot of different cultures and religions while integrating in an admirable and future-oriented way occidental and oriental history and traditions. Features and symbols of sexuality have been present for centuries across Anatolia and witnessed in books, shrines, statues and other cultural relics. We have no doubt that Istanbul, appointed as the cultural capital city of Europe in 2010, and sharing the spirit of old and new European and Asian cultures, will inspire the science of this congress.

We are very proud that we are able to offer you an innovative and attractive scientific program reflecting sexual problems of both sexes and beyond those addressing hot and sometimes controversial topics of sexuality. Many thanks to the chairs of the two scientific committees, Andrea Salonia from ESSM and Salvatore Caruso from EFS for having developed such an ambitious and thoughtful scientific program, considering the latest and most exciting achievements in the field of Sexual Medicine. Finally not only the outstanding scientific program but also every single congress participant with their individual input will contribute to the success of this joint congress and make it an unforgettable and memorable venue for the whole Sexual Medicine community.

The mixture of pioneers and leaders as well as new upstarts in the field of Sexual Medicine longing for recognition, is the secret recipe of the permanent success of the ESSM congresses. In Istanbul, ESSM and EFS will continue with their traditional and successful strategies to share science-led and practice-oriented guidance in state-of-the-art lectures, master-lectures, roundtables, workshops, podium and poster sessions presented and moderated by renowned experts and outstanding specialists in the field. As in the past we will accentuate the educational program in this congress by offering our traditional ABC master course, running in parallel to the scientific program, replenished by theme-oriented workshops jointly offered by ESSM and EFS. By tradition the ESSM and EFS congresses are not only the stage for high level science in Sexual Medicine and Sexology but also provide the opportunity to meet the old and to become acquainted with new friends. We are convinced that the spectacular and historical environment of the ancient city of Istanbul with its multicultural flare will cast a spell over you, your spouses and your friends while feeling the breeze through Bosphorus from Asia. Many thanks for joining us for this exciting congress and hope to enjoy unforgettable days with us in Istanbul.

ESSM Awards

**THE ESSM MEETING AWARDS**

The best presentations will be awarded with EUR 2,000 by the ESSM's Award Committee.

1. Prize for the best presentation on FSD (preclinical)
2. Prize for the best presentation on FSD (clinical)
3. Prize for the best presentation on MSD (preclinical)
4. Prize for the best presentation on MSD (clinical)
5. Prize for the best surgical presentation

Please note that the author of the presentation must be present during the congress in Istanbul.

**F1000 POSTER PRIZES**

The 'Faculty of 1000' has offered three best poster prizes during the 16th ESSM/12th EFS Congress 2014 in Istanbul for pre-clinical, male clinical and female clinical research.

The prizes will comprise of:

1. A year’s personal subscription to F1000Prime – “any award winner is clearly somebody who takes their research seriously and has excelled in their work. In order to harness this enthusiasm, we provide them with their own personal access to F1000Prime recommendations so that they can keep up to date with the top articles in the literature, and help in supplementing ongoing projects.”
2. A free submission to F1000Research – “we provide the winners with the opportunity to publish their work rapidly with no hassle, giving them quick priority on their work, and enabling everyone in the field to benefit from their work right away.”
3. A ‘Faculty of 1000’ certificate – “because it’s nice to have a hard copy of the achievement for the award winner’s record and curriculum vitae”.

F1000 is composed of 5,000 Faculty Members – senior scientists and leading experts in all areas of biology and medicine – plus their associates. The Faculty recommends the most important articles, rating them and providing short explanations for their selections. More info can be found at http://f1000.com/.

A jury of Selim Celek, Asif Muneer and Johannes Bitzer has been composed to select the F1000 posters during the congress.

**THE ESSM PRESTIGE AWARDS**

The Executive Committee of ESSM decided to establish two awards to be presented during the annual meetings of the society:

**The ESSM Career Award**

This award will be presented to a senior scientist who has made an outstanding contribution in the field. The Executive and Scientific Committees will select the award winner. The award winner will be presented during the Opening Ceremony.

**The ESSM Award of Excellence**

This award is presented annually to a physician or scientist (either in basic sciences or clinical practice) who has made recent exceptional achievement in the field. Special consideration will be given to applications from less-experienced researchers in Sexual Medicine.

Structure of the Scientific Program

STRUCTURE OF THE SCIENTIFIC PROGRAM
The scientific program is structured according to days. Per day it is structured by time and room. All presenters are listed by name and the title of their presentation.

STRUCTURE OF THE ABSTRACT BOOK
The abstract book is structured by session format. The listing starts with the ESSM podium sessions followed by the ESSM highlighted poster sessions. Hereafter the ESSM poster presentations are grouped in male and female sexual health. In the next chapter the EFS podium sessions are given followed by the EFS highlighted poster sessions.

ESSM AND EFS MASTER LECTURES
The ESSM and EFS master lectures of 30 minutes will be given by a distinguished and renowned expert and will be devoted to a specific topic of major interest.

ESSM, INTERACTIVE ESSM/EFS ROUND TABLES AND EFS SYMPOSIA
These sessions will usually last 90 minutes. Some of these sessions are scheduled for 60 minutes. They will focus on a particular topic and present the very latest data related to it. The round tables will include four or five papers and time for discussion. Some of the ESSM round tables are dedicated to debates.

ESSM ABC MASTER COURSE
The ESSM Educational Committee along with the Scientific Committee continues to enthusiastically work with the specific aim to eventually improve the cultural and educational proposal during the various sessions of the annual congress. From 2011, ESSM has added a 3-day master course on the ABC of Sexual Medicine to the European Continuing Medical education opportunity for specialists in the field. The ABC Master Course will incorporate all aspects of Sexual Medicine according to the syllabus including anatomy, physiology, endocrinology and psychology of sexual response, sexual development and orientation, sexual dysfunctions, sexuality in relation to cancer and other diseases.

EFS GOLD MEDAL SESSIONS
Gold medals are awarded to individuals who have made a major contribution into European Sexual Health including sexual medicine, sexology and sex education and/or involvement in sexual politics and policy making over at least a decade. Four Gold Medal sessions of 30 minutes each will take place.

VIDEO SURGERY COURSE
The video surgery course will last 120 minutes, each video has an average duration of 12 minutes. A panel of selected experts will present surgical videos showing different techniques and approaches and will discuss the details with the participants.
Structure of the Scientific Program

ESSM AND EFS PODIUM SESSIONS

ESSM and EFS podium sessions will present the best abstracts accepted for the congress and will focus on their specific topics presenting the very latest findings in this field. The sessions will last 30 to 90 minutes. Presentations are limited to 4 minutes followed by 2 minutes of discussion.

ESSM AND EFS HIGHLIGHTED POSTER TOURS

Authors were invited to submit abstracts on their latest research findings or important ongoing research. The highlighted poster tours were selected by the Scientific Committees based on a review of all abstract submissions. The most interesting posters are grouped by topic and presented in a 30-minute moderated tour. Each tour will consist of a maximum of 7 posters in the same general field and will take place during the coffee breaks from Thursday to Saturday.

SYMPOSIA IN NATIONAL LANGUAGE

The affiliated national societies of the ESSM have been invited to organize symposia in their national language during the first congress day of the annual ESSM congress.

National symposia will be held by the Turkish, the Spanish and Portuguese affiliated societies, namely ASESA/SPA and TAD. Furthermore a ‘Three Nations’ symposium of Germany, Austria and Switzerland in German language will take place.

SYMPOSIA ORGANIZED BY THE INDUSTRY

Symposia organized by the industry in consultation with the Scientific Committee will be presented Thursday, 30 January 2014, Friday, 31 January 2014 during lunch time as well as Saturday, 1 February 2014 again during lunch time.

CME ACCREDITATION

Benefits from Becoming an ESSM Member

- ESSM offers its members a permanently updated web-site with different forums and a monthly update of the whole scientific literature of Sexual Medicine, Andrology and related medical disciplines.

- ESSM provides its members quarterly newsletter, ESSM Today which features the most recent news in the field of Sexual Medicine and focuses on key topics of interest to physicians in the field.

- ESSM has supported the creation of the Multidisciplinary Joint Committee on Sexual Medicine (MJCSM) that is working under the auspices of the European Union of Medical Specialists (UEMS). MJCSM’s objectives are to study, promote and harmonize the highest level of Sexual Medicine in Europe – both on the basic and postgraduate level. The MJCSM will determine the standards for training and assessment in Sexual Medicine. Successful candidates will be awarded on behalf of the MJCSM the title of “Fellow of European Committee on Sexual Medicine (FECSM).”

- The ESSM and EFS collaborate to guarantee and promote the highest standards of healthcare in the field of Sexology and Sexual Medicine. For this purpose an educational program and qualification exam was set-up. For the first time in history, in 2014 the ESSM congress will be joint by the EFS congress and qualification examination for mark of excellence is set-up in collaboration between the ESSM and the EFS. This year the first examination for a psychologist qualification will take place. Successful candidates will be awarded the title of „EFS/ESSM Qualified Psycho-Sexologist”.

- Since 2007 ESSM has offered interested ESSM members the participation in a course of the European School of Sexual Medicine. In 2013 the course was held in Budapest with the participation of more than 30 students from all over the world, supervised by the School Directors Yacov Reisman and Francesca Tripodi.

- Besides this structured course ESSM offers at its annual congresses both instructional courses related to topics of interest in Sexual Medicine and Master Courses covering the key contents of the ESSM educational program.

- ESSM provides to its members both research grants and fellowship supports, either on individual application or supported by the National Affiliated Societies and after approval by the ESSM Scientific and Executive Committee.

Take Your Chance – Become a Member of ESSM, Now!

Seize the day, or in Latin Carpe diem and become a member of ESSM now, to take all the advantages and benefits of ESSM membership. There are two levels of ESSM membership available:

**ESSM/ISSM Membership**
A combined ESSM/ISSM membership (annual fee 130 EUR) for both Sexual Medicine Societies (ESSM/ISSM) including all ESSM and ISSM membership related services, including a subscription to the Journal of Sexual Medicine which is the monthly journal of the ISSM (International) and ESSM (European), and is the leading Journal in the field of Sexual Medicine. In addition there are reduced registration fees for all ISSM/ESSM related congresses.

**ESSM only Membership**
ESSM only membership (annual fee 50 EUR – reduced to 25 EUR for residents in training) which includes the ESSM official Scientific and Social periodical, the „ESSM Today”, full access to the comprehensive ESSM website:

[www.essm.org](http://www.essm.org)

(including regularly updated scientific material, monthly updated literature reviews, the most recent guidelines, lecture recordings and presentations from past ESSM congresses), the opportunity to participate in the ESSM educational programs, and to apply for scientific and support grants and a reduced fee for the ESSM annual congress.

Formal ESSM membership applications can either be submitted directly to the ESSM or through one of the national ESSM affiliated societies. The ESSM Executive Committee is responsible for the approval of the membership application.

**ESSM Annual Membership Fees** (January to December)

TRAVEL TO ISTANBUL
Travel to Istanbul/Arrival by plane
Istanbul has two international airports; the larger of them is Istanbul Atatürk. Atatürk as the main airport for all international airlines is located 24 kilometers (15 mi) west of the city center. Sabiha Gökçen International, 45 kilometers (28 mi) is situated southeast of the city center, it opened in 2001 to relieve Atatürk and is dominated by low-cost carriers. The taxi fare from the Atatürk airport to the city center is approx. EUR 30–35. Regular public bus transportation is also available. It costs approx. EUR 10 per person and takes, depending on the airport you start from,
General Information

approx. 30 – 45 minutes to the city center. Especially during rush hours travelers need to calculate more time to get to the city centre.

PUBLIC TRANSPORTATION

Istanbul has got 2 metro lines. One from the Atatürk Airport to Aksaray and one from Levent to Taksim. There are 4 tram lines and the most useful one is the one between Zeytinburnu (where you can change for the metro to Atatürk Airport) and Kabatas (near Dolmabahce Palace). It passes many major attractions in the historic center of Old Istanbul like the Blue Mosque, Hagia Sofia and the Topkapi Palace. It passes the bridge over the Golden Horn between the Old and the New Istanbul. From Kabatas there is a new funicular up to Taksim. From Taksim you can take the nostalgic tram through the major shopping street of Pera (Beyoglu) and then the old funicular (Tünel) down to the bridge over the Golden Horn. Jetons for single trips are sold right at the stations and cost 2 TL (EUR 0,65).

TAXIS

Flying to Sabiha Gocken Airport (SAW) or to Ataturk Airport (IST), you can use a taxi to everywhere in the city. Taxis are waiting outside the airports and the metered fare is around 120 Turkish Lira (EUR 44,60) from Sabiha Gokcen and 55 TL (EUR 20,50) from Ataturk Airport. The taxis tend to be rather small and with four passengers and four bags it can be a bit of a squeeze. Journey time is about 45 minutes from Sabiha Gokcen and 30 minutes from Ataturk airport. Due to the traffic situation, sometimes the drive can take twice as long as planned. Prices may vary, please ask for price indication before taking a taxi.

Name of the venue: Lütfi Kırdar (ICEC)

INSURANCE

The Congress fee does not include insurance. All participants should arrange for their own insurance. Health and accident insurance is recommended and has to be purchased in your country of origin.

FORCE MAJEURE

For reasons beyond its control (such as war, strikes, lockouts, riots or any such civil disturbances, any acts of God, including but not limited to earthquakes, floods, droughts and typhoons and any other cause of circumstance of whatsoever nature beyond control) that have an impact on the arrangements, timetables or planning of the 16th Congress of the European Society for Sexual Medicine joint by 12th Congress of the European Society for Sexology and its corresponding activities in Istanbul, Turkey, ESSM and EFS have the right to immediately alter or cancel the activities or events or any of the arrangements, timetables, plans or other items relating directly or indirectly thereto. No party involved shall be entitled to any compensation for damages that result from such alteration or cancellation.

CURRENCY

Currency is the Turkish Lira. Exchange rates are announced daily. Major credit cards are generally accepted by most of the hotels, restaurants and shops.

Exchange rate: 1 EUR = 2,96 TL (10 January 2014)

ELECTRICITY

The local voltage is 230 V. Plugs C & F. You will need a voltage converter, and plug adapter in order to use U.S. or other foreign appliances.

CLIMATE

The average temperature in Istanbul in January/February is 2°C at night and 7°C during the day. Rain and snow could be possible.

BANK AND ATM

Banks are open weekdays between 09:00 and 17:00. ATMs are everywhere in Turkish cities, airports, and even in most small towns.

RECORDING

Cameras, video cameras or audio recording devices are not permitted in the session rooms. Any recording of sessions is strictly forbidden.

SMOKING

The Lütfi Kırdar (ICEC) is a non-smoking venue. Smoking is prohibited within the congress venue.
SAFETY

As in all major cities and congress venues, people should take care of their personal belongings. It is not advised to (visibly) wear your badge outside the ESSM congress activities and special events.

DISCOVER THE CITY OF ISTANBUL

Istanbul is the largest city in Turkey, constituting the country’s economic, cultural, and historical heart. With a population of 13.9 million, the city forms one of the largest urban agglomerations in Europe and is the second-largest city in the world by population within city limits. Istanbul’s vast area of 5,343 square kilometers (2,063 sqm) is coterminous with Istanbul Province, of which the city is the administrative capital. Istanbul is a transcontinental city, straddling the Bosphorus – one of the world’s busiest waterways – in northwestern Turkey, between the Sea of Marmara and the Black Sea. Its commercial and historical center lies in Europe, while a third of its population lives in Asia.

Founded on the Sarayburnu promontory around 660 BC as Byzantium, the city now known as Istanbul developed to become one of the most significant cities in history. For nearly sixteen centuries following its reestablishment as Constantinople in 330 AD, it served as the capital of four empires: The Roman Empire (330–395), the Byzantine Empire (395–1204 and 1261–1453), the Latin Empire (1204–1261), and the Ottoman Empire (1453–1922).

Approximately 11.6 million foreign visitors arrived in Istanbul in 2012, two years after it was named a European Capital of Culture, making the city the world’s fifth-most-popular tourist destination. The city’s biggest draw remains its historic center, partially listed as a UNESCO World Heritage Site, but its cultural and entertainment hub can be found across the city’s natural harbor, the Golden Horn, in the Beyoğlu district. Considered a global city, Istanbul is one of the fastest-growing metropolitan economies in the world. It hosts the headquarters of many Turkish companies and media outlets and accounts for more than a quarter of the country’s gross domestic product.
