CME ACCREDITATION

The 18th Congress of the European Society for Sexual Medicine (ESSM) in Madrid, Spain, 4–6 February 2016 was granted 18 European CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).
Dear Colleagues and Friends,

On behalf of the European Society for Sexual Medicine (ESSM) and the Spanish Association of Andrology and Sexual Medicine (ASESA), it is a great pleasure for us to welcome you all to the 18th Congress of the ESSM in Madrid, 2016.

Madrid is proud to host this meeting for the second time, the first organized by the late Iñigo Saenz de Tejada in 1997. He was President and one of the founders of ESSM and this meeting is dedicated to his memory as one of the brightest scientists in Sexual Medicine and a great human being.

The scientific program of the meeting will cover all topics of male and female sexual medicine, dealing with both clinical and basic science topics. Master lectures, Round Table discussions, Podium and Poster Sessions will bring you up to date in all of the most recent advances in clinical and basic research. There will also be an extensive educational program of nine workshops dealing with new topics to help broaden knowledge and act as an update for all. For the surgeons we also have two live surgery sessions and a video course that always stimulates debate.

We welcome the Sexual Medicine Society of North America (SMSNA) and the International Society for Sexual Medicine (ISSM) who will have specific sessions as well as some of our national affiliates.

Madrid is the vibrant capital of Spain rich in history, culture and entertainment to combine a perfect fusion in a city that never sleeps. Time permitting, please visit many of the historical places and museums in the city or even just a walk in the multicolour streets.

We look forward to welcoming you to Madrid which we hope will be a fantastic ESSM congress 2016.

David Ralph, UK

**Vocal Zona Levante:** Comunidad Valenciana y Murcia  
**Rafael Lafuente Varea**

### CME ACCREDITATION

The 18th Congress of the European Society for Sexual Medicine (ESSM) in Madrid, Spain, 4–6 February 2016 was granted 18 European CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).

Accreditation by the EACCME confers the right to place the following statement in all communication materials including the registration website, the event programme and the certificate of attendance. The following statements must be used without revision: The 18th Congress of the European Society for Sexual Medicine (ESSM) is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

The 18th Congress of the European Society for Sexual Medicine (ESSM) is designated for a maximum of (or for up to) 18 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.
18th Congress of the European Society for Sexual Medicine

**MENTIONED AWARDS**

The best presentations will be awarded by ESSM’s Scientific Committee.

1. Prize for the best presentation on psychosexual, gender and sexology
2. Prize for the best presentation on FSD (clinical)
3. Prize for the best presentation on MSD (preclinical)
4. Prize for the best presentation on MSD (clinical)

Please note that the author of the presentation must be present during the congress in Madrid.

**THE ESSM PRESTIGE AWARDS**

The Executive Committee of ESSM decided to establish two awards to be presented during the annual meetings of the Society:

The ESSM Career Award
This award will be presented to a senior scientist who has made an outstanding contribution in the field. The award winner will be decided by the Executive and Scientific Committees. The award will be presented during the opening ceremony.

The ESSM Award of Excellence
This award is presented annually to a physician or scientist under 40 years of age (either in basic sciences or clinical practice) who has made recent exceptional achievement in the field.

**ESSM RESEARCH GRANTS**

Every year ESSM grants up to EUR 30,000 each to 3 – 4 research projects with a maximum duration of 18 months. Research Grants are open to all ESSM members who fulfill the eligibility criteria. The application deadline, eligibility criteria and terms and conditions of the grants can be found at the ESSM website. We will be hearing from some of the previous grant holders in Madrid meeting about their exciting and ground breaking research.

**ESSM BASIC SCIENTIST TRAVEL GRANTS**

These grants which all members of ESSM are welcome to apply for (providing that they meet the eligibility criteria), are intended to support basic scientists wishing to attend the ESSM Annual Congresses. ESSM recognises that basic scientists who are not actively engaged in clinical work in sexual medicine field may have difficulty finding sponsors to attend ESSM Annual Congresses. ESSM will therefore award a free registration and EUR 500 travel expenses to ten of its members towards attending the Annual Congresses. The application deadline, eligibility criteria and terms and conditions of the grants can be found at the ESSM website.

**F1000 POSTER PRIZES**

The „Faculty of 1000‘ has offered three best poster prizes during the 18th ESSM Congress 2016 in Madrid for pre-clinical, male clinical and female clinical research.

The prizes will comprise of:

1. A year’s personal subscription to F1000Prime – “any award winner is clearly somebody who takes their research seriously and has excelled in their work. In order to harness this enthusiasm, we provide them with their own personal access to F1000Prime recommendations so that they can keep up to date with the top articles in the literature, and help in supplementing ongoing projects.”
2. A free submission to F1000Research – “we provide the winners with the opportunity to publish their work rapidly with no hassle, giving them quick priority on their work, and enabling everyone in the field to benefit from their work right away.”
3. A Faculty of 1000 certificate – “because it’s nice to have a hard copy of the achievement for the award winner’s record and curriculum vitae”.

F1000 is composed of 5,000 Faculty Members – senior scientists and leading experts in all areas of biology and medicine – plus their associates. The Faculty recommends the most important articles, rating them and providing short explanations for their selections. More info can be found at http://f1000.com/.

**NRU BEST POSTER AND VIDEO PRIZES**

Nature Reviews Urology will be awarding prizes for best video, best preclinical poster, best male clinical poster and best female clinical poster. The prizes will be comprised of EUR 250, a certificate from Nature Reviews Urology and 1-year personal online subscription to the journal. The prizes will be presented during the Closing Ceremony of the Congress.

STRUCTURE OF THE SCIENTIFIC PROGRAM
The scientific program is structured according to days. Per day it is structured by time and room. All presenters are listed by name and the title of their presentation.

MASTER LECTURES
Master lectures of 30 minutes will be given by a distinguished and renowned expert and will be devoted to a specific topic of major interest.

ROUND TABLES
These sessions will usually last 90 minutes. Some of these sessions are scheduled for 60 minutes. They will focus on a particular topic and present the very latest data related to it. The round tables will include four or five papers and time for discussion.

WORKSHOPS – LESSONS FROM THE EXPERTS
BEYOND THE EBM (Evidence Based Medicine)
Workshops are designed for an interactive exchange of knowledge in the field of Sexual Medicine. During each workshop a short review of the accepted practice will be given following practical tips and tricks for the daily practice. The workshops will be conducted by a prominent, experienced speaker. The number of participants will be limited and according to “first come first served”. For the daily practice, hand-outs will be available online following to the respective workshop.

LIVE SURGERY
International experts will demonstrate cutting edge techniques and new tricks in a lively format. The surgery will be lively broadcasted from Puerta de Hierro Hospital in Madrid.

VIDEO SURGERY COURSE
The video surgery course will last 90 minutes, each video has a duration of 10 to 15 minutes. A panel of selected experts will present surgical videos showing different techniques and approaches and will discuss the details with the participants.

SYMPOSIA IN NATIONAL LANGUAGE
During the three congress days a dedicated room will be provided for symposia in national language by the National Affiliated Societies of the ESSM.

PODIUM SESSIONS/
SUBMITTED SURGERY VIDEO SESSION
These sessions will present the best papers accepted for the congress and will focus on specific topics presenting the very latest findings in this field. Each session will last between 30 to 60 minutes. Presentations are limited to 4 minutes followed by 2 minutes of discussion. Videos are allocated for 5 minutes presentation and 3 minutes discussion.

HIGHLIGHTED POSTER TOURS
Authors were invited to submit abstracts on their latest research findings or important ongoing research. The highlighted poster tours were selected by the Scientific Committee based on a peer review of all abstract submissions. The most interesting posters are grouped by topic and presented in 30-minute moderated tours. Each tour will consist of a maximum of 7 posters in the same general field and will take place during the coffee breaks from Thursday to Saturday.

POSTER PRESENTATIONS
Authors were invited to submit abstracts on their latest research findings or important ongoing research as posters; these will be grouped into areas of research by the scientific committee. The poster exhibition in the exhibition area in front of the Auditorium A is scheduled from Thursday, 4 to Saturday, 6 February 2016.

INDUSTRY SPONSORED SESSIONS
Industry sponsored sessions are organized by the industry in consultation with the scientific committee are considered for the congress days from Thursday to Saturday. These sessions are scheduled during the congress and will not interfere with the scientific program.

14:00  La final

RT-01  ROUND TABLE
08:30–10:00     Auditorium A

How to take the pain out of sex?
Chairs: Alessandra Graziottin, Italy
Chiara Simonelli, Italy
001  Studying sexual pain in the sex lab: how do we involve partners?
  Marieke Dewitte, Belgium
002  The impact of dyadic sexual communication between partners and genital self-image on sexual
  pain and distress
  Paraskevi-Sofia Kirana, Greece
003  Disgust-based mechanisms in sexual pain disorders
  Charmaine Borg, The Netherlands
004  On the link between sexual trauma, insecure
  attachment and pelvic floor hypertonicity in Chronic Pelvic Pain
  Ellen T. M. Laan, The Netherlands
WS-02 WORKSHOP
09:00 – 10:00 Room Paris
Sex in the disabled
Chair: Woet L. Gianotten, The Netherlands
Description see page 41.

ML-01 MASTER LECTURE
10:00 – 10:30 Auditorium A
Advocating sexual health – how to raise public awareness of tabooed topics
Chair: Mikkel Fode, Denmark
001 Advocating sexual health – how to raise public awareness of tabooed topics
Christian Graugaard, Denmark

10:00 – 10:30 BREAK

HP-01 HIGHLIGHTED POSTER TOUR
10:00 – 10:30 Foyer
Prostate cancer treatment and Peyronie’s
Chairs: Andreas Bannowsky, Germany
Joaquín Carballido Rodríguez, Spain
001 Low-intensity shockwave treatment for ED patients at least one year after radical prostatectomy – phase IIb study
Boaz Appel, Israel
O. Massarwa, I. Gruenwald
002 The impact of age difference between the patient and his female partner on the couple’s sexual life after bilateral nerve sparing radical prostatectomy
Kathleen Herkommer, Germany
A. Dinkel, J. E. Gschwend, T. Jordan
003 Exploring the association between Peyronie’s disease and metabolic syndrome
Mohamad Habous, Saudi Arabia
B. Williamson, I. Malkawi, O. Abdelwahab, J. Mulhall, D. Ralph, R. Santucci
004 The Egydio geometrical procedure for managing penile curvature using a single relaxing incision: a single-centre experience with 330 patients
Konstantinos Konstantinidis, Greece
C. Filaturas, P. Drettas, N. Sofikitis, F. Sofras
005 Validation of a Patient Reported Outcome Measure (PROM) for penile curvature surgery
Angus Campbell, United Kingdom
D. Akiboye, S. Mukhtar, M. Jackson, N. Watkin

006 The role of MRI in diagnostic evaluation and therapeutic algorithm in Peyronie’s disease: findings from one hundred patients single-institution cohort
Vincent Hupertan, France
007 Patient satisfaction and long term result of surgery for Peyronie’s disease: a retrospective study on more than 120 patients treated in one referral centre
Carlo Ceruti, Italy

RT-02 ROUND TABLE
10:30 – 11:45 Auditorium A
Industry sponsored Round Table
see page 55.

RT-03 ROUND TABLE
10:30 – 12:00 Room Madrid
Sex and conception after gynecological malignancy
Chairs: Arik Shechter, Israel
Johannes Bitzer, Switzerland
001 Sexuality in breast cancer survivors
Gideon Sartorius, Switzerland
002 Sexual consequences of gynecological cancers and cancer treatments in the pelvis
Luca Incrocci, The Netherlands
003 The current role and future prospects of cryobanking of oocytes and ovarian tissue
Stine Kristensen, Denmark
004 Sexual rehabilitation in women treated for gynecological cancers
Isabel White, United Kingdom
### ESSM-01 ESSM SESSION

**RT-06 ROUND TABLE**

08:00–09:15 Auditorium A

Is sex dying with age?

Chairs: Erick Janssen, Belgium
Ferdinando Fusco, Italy

001 Age-related prevalence rates of sexual difficulties, sexual dysfunctions, and sexual distress
Lies Hendrickx, Belgium

002 Sexual behavior in later life
David M. Lee, United Kingdom

003 Sexual changes in midlife: implications for patients and their partners
Rossella E. Nappi, Italy

004 How to discuss sex with the elderly patients?
Mijal Luria, Israel

**LV-02 LIVE SURGERY SESSION**

08:00–11:00 Room Madrid

Industry sponsored Live Surgery
Broadcasted from La Zarzuela Hospital in Madrid
see page 56.

**WS-03 WORKSHOP**

08:00–09:00 Room Paris

Hyperprolactinemia
Chair: Giovanni Corona, Italy
Speakers: Linda Vignozzi, Italy
Giulia Rastrelli, Italy

Description see page 42.

**WS-04 WORKSHOP**

09:00–10:00 Room Paris

Intersex challenges – caring for families and individuals with diverse sex development (dsd)
Chair: Katinka Schweizer, Germany

Description see page 42.

**NA-02 NATIONAL SYMPOSIUM**

09:00–12:30 Room Berlin

Eurasian Andrology Summit in conjunction with the Italian Society of Andrology (SIA): update on the treatment of male infertility
Chairs: Ates Kadioglu, Turkey
Giorgio Franco, Italy
Selahittin Cayan, Turkey
in English language. Organiser: TAD and SIA

**SECTION 1 (09:00–10:30)**

Chairs: Ates Kadioglu, Turkey
Giorgio Franco, Italy

09:00 Nightmare session: difficult case presentations in andrology from residents to faculties
Residents: Leonardo Misuraca, Italy
Eugenio Ventimiglia, Italy
Mehmet Ali Karagöz, Turkey
Juan Gómez Rivas, Spain

Faculties: Fulvio Colombo, Italy
Jens Sønksen, Denmark
Ignacio Moncada Iribarren, Spain

Panel: update on the medical treatment of male infertility (09:30 – 10:30)

09:30 Idiopathic male infertility: Evidence based treatment options
Zsolt Kopa, Hungary

09:45 Current treatment of hypogonadotropic hypogonadism
Murad Basar, Turkey

10:00 Fertility preservation in male cancer patients
Aleksander Khelaia, Georgia

10:15 Approach to sperm retrieval in men with neurogenic anejaculation
Mikkel Fode, Denmark

10:30 - 11:00 Break
SECTION 2 (11:00 – 12:30)
Chairs: David Ralph, United Kingdom
        Onder Yaman, Turkey
Panel: Update on the surgical treatment of male infertility (11:00 – 11:45)
11:00  Update on the microsurgical varicocele repair
        Selahittin Cayan, Turkey
11:15  Update on the surgical treatment of proximal and distal obstruction
        Giorgio Franco, Italy
11:30  Update on sperm retrieval techniques / microTESE for ART
        Giovanni M. Colpi, Italy
Panel: Challenging cases in male infertility (11:45 – 12:30)
Moderator:
        Ates Kadioglu, Turkey
Panelists:
        Andrea Salonia, Italy
        Ahmad Shamsodini, Qatar
        Barıs Altay, Turkey
        Carlo Bettocchi, Italy

HP-03 HIGHLIGHTED POSTER TOUR
10:00 – 10:30 Foyer
Body and mind, gender and sexual orientation
Chairs: Charmaine Borg, The Netherlands
        Ana Rosa Jurado, Spain
001  Translation, validation and cultural adaptation of the index of male genital image in Egypt
        Salma Omar, Egypt
        S. Abd ElHafeez
002  Sexual function in schizophrenia
        Dennis Lin, USA
003  The impact of renal cancer diagnosis and planned treatment (radical vs partial nephrectomy) over sexual and mental health
        Paolo Capogrosso, Italy
        E. Ventimiglia, L. Boeri, U. Capitanio, C. Carenzi, A. Briganti, R. Bertini, F. Montorsi, A. Salonia
004  Where we are and where we aim. Towards a complex model of the male sexual desire
        Filippo Maria Nimbi, Italy
        F. Tripodi, R. Rossi, C. Simonelli
005  The correlation between a risk of female sexual dysfunction and anxiety, depression, eating disorders symptoms, type D personality, and the 2nd to 4th digit ratio as possible marker of prenatal androgen exposure
        Gintare Zukauskaite, Lithuania
        G. Jonusiene, D. Leskauskas, I. Baseviciene
006  Psychological characteristics of gender dysphoric adolescents sample compared to a control group
        Alessandra Daphne Fisher, Italy
        J. Ristori, G. Castellini, C. Sensi, M. Mosconi, M. Lavaggi, V. Ricca, M. Maggi
007  If I want to have sexual desire for a man, I need to watch his wife: an original and exploratory eye-tracking study among women
        Mylene Bolmont, Germany
        F. Bianchi-Demicheli
008  Transphobia and homophobia levels in gender dysphoric individuals, general population and health care providers
        Alessandra Daphne Fisher, Italy
ESSM-03  ESSM SESSION
10:30–11:30  Auditorium A
WAS symposium (World Association for Sexual Health)
The state of the art of sexual health and sexual rights: a multidisciplinary perspective
Chairs: Pedro Nobre, Portugal
Kevan Wylie, United Kingdom
001 The state of the art of current training in sex education around the world
Kevan Wylie, United Kingdom
002 The state of the art of psychotherapy for sexual problems
Pedro Nobre, Portugal
002 The state of the art of sexual rights around the world
Tommi Paalanen, Finland

WS-05  WORKSHOP
10:30–12:00  Room Paris
How to deal with sexual consequences of menopause?
Chairs: Lior Lowenstein, Israel
Johannes Bitzer, Switzerland
Description see page 43.

RT-08  ROUND TABLE
11:00–12:00  Room Madrid
Sexytocin
Chairs: Petter Hedlund, Sweden
Carla Costa, Portugal
001 Neuropeptides in sexual medicine
Emmanuel Weyne, Belgium
002 The role of oxytocin in the male and female sexual response cycle
Marcel D. Waldinger, The Netherlands
003 Intranasal administration of oxytocin: what are the effects on our sex lives?
Tilmann Krüger, Germany
004 Oxytocin: is it love hormone or a sex hormone?
Trynke de Jong, Germany

12:00–13:30  BREAK

SA-03  INDUSTRY SPONSORED SYMPOSIUM
12:00–13:30  Auditorium A
see page 56.

ML-05  MASTER LECTURE
13:30–14:00  Auditorium A
Flibanserin for HSDD in women, are we medicalizing HSDD?
Chair: Yacov Reisman, The Netherlands
001 Flibanserin for HSDD in women, are we medicalizing HSDD?
Annamaria Giraldi, Denmark

RT-09  ROUND TABLE
14:00–15:30  Auditorium A
T use and abuse focus on body composition and metabolic profile
Chairs: Jose Torremade Barreda, Spain
Pedro Vendeira, Portugal
001 Obesity and hypogonadism: who came first?
Ilpo Huhtaniemi, United Kingdom
002 Sex steroids and the development of metabolic syndrome in the EMAS cohort
Leen Antonio, Belgium
003 Glycometabolic effects and anti-obesity of TRT
Michael Zitzmann, Germany
004 Metabolic consequences of illicit anabolic steroid use and withdrawal management in sportsmen/body builders
Eberhard Nieschlag, Germany

VS-01  VIDEO SURGERY COURSE
14:00–15:30  Room Madrid
Industry sponsored Video Surgery Course
see page 56.

PS-04  PODIUM SESSION
14:00–15:30  Room Berlin
Basic and translational research
Chairs: Trinity Bivalacqua, USA
Javier Angulo, Spain
001 Retention of stem cells in the corpus cavernosum by nanoparticles improves stem cell intracavernous injection therapy for erectile dysfunction: a novel animal study
Haosheng Lin, China
N. Dhanani, H. Tseng, G. Souza, G. Wang, Y. Cao, T. Ko, H. Jiang, R. Wang
002 Increase in TNF-alpha leads to enhanced recruitment of neurotoxic M1 macrophages to the major pelvic ganglion following bilateral cavernous nerve injury
Hotaka Matsui, USA
N. A. Sopko, E. Weyne, M. Kates, X. Liu, J. L. Hannan, T. J. Bivalacqua

003 SDF-1 treatment promotes major pelvic ganglion neurite outgrowth by upregulating neurotrophic factor expression, which is blocked by AMD3100
Nikolai Sopko, USA
H. Matsui, M. Kates, D. Lough, X. Liu, J. Hannan, T. J. Bivalacqua

004 First results from a novel cell-based assay for anti-myofibroblast activity in Peyronie’s disease
Marta Mateus, United Kingdom
W. Stebbeds, B. Ameyaw, A. Raheem, M. Spilotros, G. Garaffa, A. Munee, N. Christopher, S. Cellek, D. Ralph

005 Inhibition of advanced glycation end products prevents erectile dysfunction caused by excessive administration of fructose from childhood in rats
Yuji Hotta, Japan
D. Nakamura, R. Yahagi, T. Kataoka, Y. Maeda, Y. Kawade, K. Kimura

006 Osteopontin is a novel player in endogenous neuroregeneration after BCNI
Stefan Ueckert, Germany
A. Bettiga, D. Tsikas, M. Kuczyk, P. Hedlund

011 The change of erectile function and histology of corpus cavernosum in a rat model of metabolic syndrome
Sun Wook Kim, Republic of Korea
D. W. Sohn

012 The prostate after castration and hormone replacement in a rat model: structural and ultrastructural analysis
Francisco Sampaio, Brazil
C. Gallo, B. Felix-Patricio, W. Costa, A. Miranda

013 Treatment with anti-convulsant pregabalint at high dosage protects the penile erectile responses in rat model of acute anxiety
Didem Yilmaz Oral, Turkey
H. Caliskan, F. Akat, N. Zaloglu, S. Gur

014 Low plasma testosterone and increased aortic stiffness: importance of low-grade inflammation in men with erectile dysfunction
Konstantinos Rokkas, Greece
C. Vlachopoulos, N. Ioakeimidis, A. Angelis, D. Tentetes-Printzios, M. Abdelraoul, Z. Kraitas, C. Georgakopoulos, C. Fassoulakis, D. Tousoulis

015 Effects of openers of small and intermediate calcium-activated K channels on cardiac rhythm and erectile function in rats
Stefan Ueckert, Germany
A. Bettiga, D. Tsikas, M. Kuczyk, P. Hedlund

016 Injecting blood components for erectile dysfunction
Sharath Kumar Channappappa, India

PS-05 PODIUM SESSION
14:00 – 15:30 Room Paris
Female sexual function & dysfunction
Chairs: Sharon Parish, USA
Claudio Martinez-Ballesteros, Spain

001 The effects of aversive classical conditioning on sexual response in women with genito-pelvic pain disorder and sexually functional controls
Stephanie Both, The Netherlands
E. Laan, M. Brauer

002 Endometriosis and sexuality: a study on patients with and without infertility
Valentina Rossi, Italy
E. Viozzi, F. M. Nimbi, F. Tripodi, M. G. Porpora

003 Which are the male factors associated with Female Sexual Dysfunction (FSD)?
Elisa Maseroli, Italy
E. Fanni, E. Mannucci, M. Fambrini, E. A. Jannini, M. Maggi, L. Vignozzi

004 Female genital mutilation among middle aged Egyptian women in Egypt
Doaa Elkovessny, Germany
H. Salama, M. Abu-Nazel, S. Ghobashy
005 Bringing the body of the iceberg to the surface: the Female Sexual Dysfunction Index-6 (FSDI-6) in the screening of female sexual dysfunction
Elisa Maseroli, Italy
E. Fanni, M. Fambrini, B. Ragghianti, E. Limoncin, E. Mannucci, M. Maggi, L. Vignozzi

006 Comparison effects of aerobic exercise and sertraline on depression and sexual desire in women with depression
Laleh Pourmousavi, Islamic Republic of Iran
M. Abdoly, A. Nikseresht, M. Pourmousavi

007 Models of sexual response in women with diabetes mellitus
Krzysztof Nowosielski, Poland
R. Kowalczyk

008 Do Portuguese medical students feel prepared to address sexuality as part of everyday clinical practice?
Lucas Rocha Lopes, Portugal

009 Influences of hormone-based contraception on female sexual function
Lina Ciaplinskiene, Lithuania
B. Zilaitiene, R. Verkauskiene, R. Zalinkevicius, Z. Bumbuliene, V. Vanagiene, M. Pagareckaite, B. Johannes

010 Sexual function in Lithuanian postmenopausal women: environment or sex hormones
Giedre Jonusiene, Lithuania
R. Aniuliene, V. Adomaitiene, B. Zilaietne

011 Sexual function and body image in women using hormonal contraceptives – preliminary results
Krzysztof Nowosielski, Poland
K. Stolorz, R. Kowalczyk

012 The state of sexual health of Belgian WSW anno 2015
Johan Vansintejan, Belgium
E. op de Beke, D. Devroeey

013 Does gender or sexual orientation influence diagnosing paraphilic disorders?
Verena Klein, Germany
P. Briken, J. Fuß

014 Predictors of loss of libido in infertile couples
Yanira Ortega González, Spain
D. Báez Quintana, P. R. Gutiérrez Hernández

015 Efficacy and safety of Flibanserin for the treatment of hypoactive sexual desire disorder in women: a systematic review and meta-analysis of randomized controlled trials
Loes Jaspers, Netherlands
F. Feys, W. Bramer, O. Franco, P. Leusink, E. Laan

       Mark-Bram Bouman, The Netherlands

PS-06   PODIUM SESSION
16:00–17:30  Room Paris
MSD surgical/Peyronie/penile disorders
Chairs: Mustafa Faruk Usta, Turkey
       Maria Alejandra Egui Rojo, Spain
001  Preliminary results of the first European Registry for Penile Implants: the INSIST-ED REGISTRY (Italian Nationwide Systematic Inventarisation of Surgical Treatment for ED)
       Giorgio Franco, Italy
       E. S. Pescatori, E. Caraceni, F. Colombo, F. Dehò, L. Utizi
002  Penile implant device dissatisfaction & reasons for non-use from the PROPPER study
       Tobias Kohler, USA
       A. Bella, E. Karpman, W. Brant, B. Christine, L. Jones, B. Kansas, N. Bennett, M. Khera, E. Rhee, G. Henry
003  The Multiple Sliding Technique (MUST) for maximum penile length and girth restoration
       Franklin Kuehhas, United Kingdom
       P. Egido
004  Neglected sexual side effects to radiation therapy for prostate cancer
       Anders Frey, Denmark
       C. Korsgaard Pedersen, H. Lindberg, R. Bisbjerg, J. Sørkens, M. Fode
005  Robot-assisted radical prostatectomy is associated with faster recovery of postoperative sexual desire in patients with prostate cancer
       Paolo Capogrosso, Italy
       E. Ventrimiglia, L. Boeri, G. La Croce, F. Dehò, R. Scano, E. Farina, F. Montorsi, A. Salonia
006  Long-term results after partial plaque excision and grafting with collagen fleece in Peyronie’s disease
       Georgios Hatzichristodoulou, Germany
       S. Fiechtnner, J. Gschwend, S. Lahme
007  Changes in the effects of Peyronie’s disease after treatment with collagenase clostridium histolyticum according to men with Peyronie’s disease and their female sexual partners
       Irwin Goldstein, USA
008  Comparative analysis of surgery vs. intralpsional injection therapy for ventral Peyronie’s disease
       Georgios Hatzichristodoulou, Germany
       F. Yafi, C. Knoedler, L. Trost, J. Gschwend, W. Hellstrom
009  The management of Peyronie’s disease – a comparison of UK practice to EAU guidelines
       Judith Dockray, United Kingdom
       R. Rees
010  Penile length is a very important factor for cosmetic, functional, sexual and psychosocial development in patients affected by hypospadias: results from a long-term longitudinal cohort study
       Gaia Polloni, Italy
       N. Mondaini
011  Sleep-related painful erections: diagnostics and therapeutic implications
       Sanne Vreugdenhil, The Netherlands
       I. J. de Jong, M. F. van Driel
012  Presentation, diagnosis and outcomes of men presenting with segmental thrombosis of the corpus cavernosum
       Michelle Christodoulidou, United Kingdom
       V. Sahdev, V. Modgil, M. Walkden, N. Ramachandran, A. Muneer
013  Genital skin flaps as a viable option for urethral reconstruction in female to male transgender patients with total phalloplasty
       Marta Bizic, Serbia
       B. Stojanovic, V. Kojovic, M. Majstorovic, M. Djordjevic
014  Total phallic reconstruction using radial artery based forearm free flap after penile loss secondary to trauma
       Marco Falcone, Italy
       G. Garaffa, F. De Luca, A. Raheem, F. Holden, C. Akers, A. N. Christopher, D. J. Ralph
015  Our experience in congenital penile curvature correction
       Maksym Romaniuk, Ukraine
       O. Kornyenko, P. Aksonov
Scientific Program | Friday, 5 February 2016

**NA-03 NATIONAL SYMPOSIUM**

16:00–17:30 Room Berlin

**AIUS—French National Affiliated Society**
Association Interdisciplinaire post Universitaire de Sexologie in English language

**Sexual Cyberaddictions**

**President:** Mireille Bonierbale, France
**Moderators:** Gilbert Bou Jaoudé, France
Antoine Faix, France
Eric Huyghe, France

**Introduction**
Mireille Bonierbale, France
Gilbert Bou Jaoudé, France

Cybersexuality and the concept of intimacy
Jean Peyranne, France

Cyber-infidelity: true or virtual?
Pierre Martin-Vauzour, France

When starts the sexual cyberaddiction and links with hypersexuality?
Laure Grellet, France

Cybersexuality: how to treat?
Laure Grellet, France

Questions and closing remarks
Antoine Faix, France
Gilbert Bou Jaoudé, France

**ML-07 MASTER LECTURE**

17:30–18:00 Auditorium A

**Mood, and its role in sexual inhibition and excitation**

**Chair:** Francesca Tripodi, Italy

001 Mood, and its role in sexual inhibition and excitation
Erick Janssen, Belgium

**ESSM ANNUAL BUSINESS MEETING**

18:00–19:00 Room Madrid

— for members only —
### RT-12 ROUND TABLE

**08:00–09:00 Auditorium A**

**Dermatological changes in the vulvovaginal area, from diagnosis to management**

**Chairs:** Annamaria Giraldi, Denmark  
Lior Lowenstein, Israel  

**001** Benign disorders in the vulvovaginal area (LSEA, infections,...)  
Ahinoam Lev-Sagie, Israel

**002** Vestibulitis/provoked vestibulodynia and sexual functioning  
Alessandra Graziottin, Italy

**003** Vulvar cancer and vulvectomies: is sexual life over?  
Leen Aerts, Belgium

### RT-13 ROUND TABLE

**08:00–09:15 Room Madrid**

**Men’s health checklist: male health status and sexuality throughout the lifespan**

**Chairs:** Giorgio Bozzini, Italy  
Ana Maria Puigvert Martinez, Spain

**001** Sexual development in the womb through puberty  
Ulla Joensen, Denmark

**002** What men should know about STI  
Onder Yaman, Turkey

**003** Lifestyle, testosterone and sexual function  
Giovanni Corona, Italy

**004** Sexuality and general health issues in the aging male  
Markus Margreiter, Austria

### WS-06 WORKSHOP

**08:00–09:00 Room Paris**

**Difficult cases in psychogenic ED: from diagnosis to treatment**

**Chair:** Paraskevi-Sofia Kirana, Greece

_Description see page 44._

### RT-14 ROUND TABLE

**09:00–10:30 Auditorium A**

**Where does normal stop and perverse start?**

**Chairs:** Luc Gjis, Belgium  
Petr Weiss, Czech Republic

**001** Asexuality, (how) does it differ from hypoactive sexual desire disorder?  
Paul Enzlin, Belgium

**002** Assessment and approach of hypersexuality and hypersexual  
Petr Weiss, Czech Republic

**003** Neurobiological and-cognitive factors in pedophilia  
Tilmann Krüger, Germany

**004** Is sexual offender profiling possible, and how can we prevent sexual offense recidivism?  
Andreas Mokros, Switzerland

### WS-07 WORKSHOP

**09:00–10:00 Room Paris**

**Sexual consequences of sexual transmitted infections (STI)**

**Chair:** Yacov Reisman, The Netherlands

_Description see page 44._

### RT-15 ROUND TABLE

**09:15–10:30 Room Madrid**

**Complex cases and complication management in penile disorders**

**Chairs:** Antoine Faix, France  
Ahmad Shamsodini, Qatar

**001** Complex genital trauma: what are the options: penile transplantation?  
Rados Djinovic, Serbia

**002** Complex presentation of Peyronie’s disease: which intervention for which patient?  
Ates Kadioglu, Turkey

**003** Herniation, impeding erosion and infected penile prosthesis: how to tackle?  
Carlo Bettocci, Italy

**004** Simultaneous management of the complications of radical prostatectomy: dual implantation using a single incision  
Juan Ignacio Martinez-Salamanca, Spain

**005** To shunt or to implant? Surgical treatment of ischemic priapism  
Asif Muneer, United Kingdom

**10:00–10:30 BREAK**
Scientific Program I Saturday, 6 February 2016

**HP-07 HIGHLIGHTED POSTER TOUR**

**10:00 – 10:30 Foyer**

**Basic Science**

**Chairs:** Fabio Castiglione, Italy  
Linda Vignozzi, Italy

**001** Exogenous TNF-alpha induces apoptosis of nitricergic neurons and impairs neurite outgrowth from the major pelvic ganglion  
Hotaka Matsui, USA  
N. A. Sopko, E. Weyne, M. Kates, X. Liu, M. Albersen, J. L. Hannan, T. J. Bivalacqua

**002** The expression and functional analysis of P2X4 receptor in rat penis  
Ryo Yahagi, Japan  
Y. Hotta, T. Kataoka, Y. Maeda, Y. Kawade, K. Kimura

**003** Ex-vivo mixed lymphocyte reaction model of human corporal tissue can be used to assess the effects of rejection on erectile function in the setting of penile transplantation  
Nikolai Sopko, USA  
H. Matsui, X. Liu, A. Burnett, T. Bivalacqua

**004** GoSlo-SR5-130 activates BKCa channels and inhibits spontaneous contractility in rabbit corpus cavernosum  
Karen Hannigan, Ireland  
K. Thornbury, E. Bradley, R. Large, M. Hollywood, N. McHale, G. Sergeant

**005** The effect of a stem cell suspension injected to the corpora cavernosa of diabetic rats on erectile function  
Ilan Gruenwald, Israel  
B. Appel, R. Yehieli-Cohen

**006** Morphological changes of the cavernous tissue of the penis in obese rats  
Sergey Bogolyubov, Russia  
A. Artamonov, T. Eliseeva, O. Pozdnjakov, I. Eliseeva

**007** Unveiling the role of vasculogenesis in diabetic erectile dysfunction using a bone marrow transplantation model: preliminary results  
Carla Costa, Portugal  
A. Castela, P. Gomes, A. R. Ribeiro, R. Costa, L. Guardão, L. Leite, P. Vendeira

**HP-08 HIGHLIGHTED POSTER TOUR**

**10:00 – 10:30 Foyer**

**ED and prostate**

**Chairs:** Abdullah Armagan, Turkey  
Dejan Bratus, Slovenia

**002** Altered brain functional connectivity in men with chronic prostatitis/chronic pelvic pain syndrome who report painful ejaculation  
Melissa Farmer, USA  
D. Davis, A. J. Schaeffer, A. V. Apkarian

**003** Acceptance and discontinuation rates of dapoxetine treatment in Chinese patients with premature ejaculation  
Zhichao Zhang, China  
J. Peng, Y. Yuan, B. Gao, W. Cui

**004** Personality traits in men with erectile dysfunction and/or premature ejaculation  
Filippo Maria Nimbi, Italy  
M. Silvaggi, P. M. Michetti, R. Rossi, A. Fabrizi, C. Simonelli

**005** Some aspects of clinical course of chronic bacterial prostatitis, etiological structure of which is mixed infection  
Khalid Ibishev, Russia  
D. Krakhotkin, M. Kogan, A. Cherny, A. Ferzauli

**006** PSA as a marker of inflammation in young population with Chronic Prostatitis/Chronic Pelvic Pain Syndrome (CP/CPPS)  
Aleksander Khelaia, Georgian  
M. Lauri

**007** BibliothEP: a study evaluating the effectiveness of bibliotherapy for premature ejaculation (PE)  
Philippe Kempenneers, Belgium  
R. Andrianne, S. Bauwens, S. Blairy, M. Cuddy, I. Georis

**008** Efficacy of Dapoxetine in the treatment of premature ejaculation patients who previously failed Sertraline therapy  
Dalin He, China  
L. Yang

**HP-09 HIGHLIGHTED POSTER TOUR**

**10:00 – 10:30 Foyer**

**Hormones**

**Chairs:** Zdravko Asenov Kamenov, Bulgaria  
Josep M. Pomerol, Spain

**001** Erectile function and glycaemic control in 109 hypogonadal men with Prediabetes treated with testosterone undecanoate injections (TU) for up to 8 years: real-life data from registry studies  
Farid Saad, Germany  
A. Haider, K. Haider, A. Yassin, G. Doros, A. Traish

**002** Gonadal dysfunction in men with chronic kidney disease undergoing hemodialysis  
Nidhal Ati, Tunisia  
Z. Elati, R. Sofiene, A. Mnasser, W. Zakhama, M. Y. Binous

**003** Evaluation of testosterone replacement therapy (TRT) in hypogonadal diabetic men  
Badri Gvasalia, Russia  
A. Belous, V. Serebrennikov, Y. Kuryleva
004 Levels of estradiol and testosterone are altered in Chinese men with sexual dysfunction
Gang Xu, China
F. Wu, T. Chen, H. Jiang, Q. Ding, S. Mao

005 Sex hormone profile on hemodialysis
Nidhal Ati, Tunisia
Z. Elati, R. Sofiene, A. Mnasser, W. Zakhama, M. Y. Binous

006 Reproductive health: Portuguese male resources regarding contraceptive literacy and their access to reproductive health care
Alexandra Tereso, Portugal
P. Pedro

ML-08 MASTER LECTURE
10:30 – 11:00 Auditorium A
State of the art in male contraception
Chair: Hartmut Porst, Germany
001 State of the art in male contraception
Frederick Wu, United Kingdom

WS-08 WORKSHOP
10:30 – 11:30 Room Paris
Difficult cases of ejaculatory disorders: practical tips
Chairs: Emmanuele A. Jannini, Italy
Ege Can Serefoglu, Turkey
Description see page 45.

RT-16 ROUND TABLE
11:00 – 12:30 Auditorium A
Shocking penile therapies: ESWT from bench to bedside
Chairs: Dimitris Hatzichristou, Greece
Yoram Vardi, Israel
001 The idea and concept of ESWT therapy for ED: what does the clinical data tell us?
Ilan Gruenwald, Israel
002 Is there still a role for shock wave therapy for Pyronie’s disease in 2016?
Georgios Hatzichristoudoulou, Germany
003 ESWT for erectile dysfunction: how does it work?
Delphine Behr-Roussel, France
004 ESWT: a critical viewpoint
Trinity Bivalacqua, USA
005 ESWT in sexual medicine – are we on the right path?
Francois Giuliano, France

WS-09 WORKSHOP
11:30 – 12:30 Room Paris
Infertility and sexuality: why and how to pay attention
Chair: Ates Kadioglu, Turkey
Speakers:
Saturnino Lujan, Spain
Ahmet Gökçe, Turkey
Description see page 45.

RT-17 ROUND TABLE
11:00 – 12:30 Room Madrid
Penile controversies: the foreskin
Chairs: Mariano Rosello Gaya, Spain
Raj Nigam, United Kingdom
001 The effect of infant circumcision on the development of glans sensitivity and dysfunction in later life: what is the evidence?
Piet Hoebeke, Belgium
002 Uncircumcision: techniques and outcomes
Mujde Ozer, The Netherlands
003 Parental decision making and the ethical debate around circumcision: what are the pro’s, what are the con’s?
Nicola Mondaini, Italy
004 Circumcision as a preventative measure against STI and penile cancer: what does the evidence say?
Arie Parnham, United Kingdom

SA-04 INDUSTRY SPONSORED SESSION
12:30 – 13:30 Auditorium A
see page 57.

ML-09 MASTER LECTURE
13:30 – 14:00 Auditorium A
Award of Excellence
Chair: Carla Costa, Portugal
001 Erectile dysfunction after radical prostatectomy: from bench side to clinical practice
Juan Ignacio Martinez-Salamanca, Spain
### RT-18 ROUND TABLE
**14:00 – 15:15**
Room Madrid

**The health benefits of sexual expression**

**Chairs:** Kevan Wylie, United Kingdom
Yacov Reisman, The Netherlands

**001** Sexual activity and longevity, heart disease and stroke
Kevan Wylie, United Kingdom

**002** Sexual activity and its effects on genito-urinary and reproductive health
Muammer Kendirci, Turkey

**003** Psychological, emotional and social benefits of sexual expression
Sandra Vilarinho, Portugal

**004** Sex: is it healthy or dangerous?
Woet L. Gianotten, The Netherlands

### RT-19 INDUSTRY SPONSORED ROUND TABLE
**14:00 – 15:15**
Auditorium A

see page 57.

### PS-07 PODIUM SESSION
**14:00 – 15:00**
Room Paris

**Male sexual dysfunction – submitted surgery videos**

**Chairs:** David Ralph, United Kingdom
Ignacio Moncada Iribarren, Spain

**001** A new original surgical technique for Peyronie’s disease: albugineal graft-free lengthening z-plasty. Results with mean follow up over 12 months
Andrea Moiso, Italy
A. Moiso, D. Moiso, M. T. Filocamo, P. Polledro

**002** Using fascia lata during corporoplasty with phalloprosthesis
Andrey Arkatov, Ukraine

**003** Penile prosthesis implant in a neophallus
Carmen Pozo, Italy
I. S. Galarza, J. Martinez de Hurtado, A. Guijarro, C. Llorente

**004** Ventral median yachia under spongiosum body: a novel approach for correction of dorsal penile curvature
Edoardo Pescatori Dott, Italy
B. Drei, G. Peluso

**005** Extrapelviconeal radical prostatectomy with simultaneous implant of penile prosthesis CX 700 inhibizone
Nicola Mondaini, Italy
G. Pollini, E. Sarti, R. Bartoletti

**006** Does transurethral cryosurgery of the bladder can treat Bladder Pain Syndrome and related FSD?
Yakov Mirkin, Russia

**007** Plaque incision, grafting and inflatable penile prosthesis implantation in a patient with refractory erectile dysfunction, severe dorsal curvature and penile shortening secondary to Peyronie’s disease
Marco Falcone, Italy
G. Garaffa, D. Ralph

### PS-08 PODIUM SESSION
**15:00 – 16:30**
Room Paris

**Male sexual dysfunction – epidemiology, medical management and conservative treatments**

**Chairs:** Lars Lund, Denmark
Francesco Lotti, Italy

**001** Sedentary lifestyle, erectile dysfunction and lower urinary tract symptoms
Eduardo Moreira Pinto, Portugal
B. Jorge Pereira

**002** Analysis of the knowledge of relation between modifiable risk factors and erectile dysfunction in patients with ischaemic heart disease who underwent cardiac rehabilitation
Dariusz Kalka, Poland
Z. Domagala, J. Gebala, L. Karpinski, M. Borecki, A. Dulanowska, K. Stolarczyk, L. Rusiecki, K. Womperski, W. Pilecki

**003** Vascular and chronological age in subjects with erectile dysfunction: a cross-sectional study
Giulia Rastrelli, Italy
G. Corona, E. Mannucci, M. Maggi

**004** Effect of antihypertensive drugs in dynamic penile peak systolic velocity
Konstantinos Rokkas, Greece
N. Ioakeimidis, C. Vlachopoulos, A. Angelis, M. Abdelrasoul, Z. Kratiras, C. Fassoulakis, D. Tousoulis

**005** Elevated plasma aldosterone is an independent risk factor for erectile dysfunction in chinese men
Gang Xu, China
F. Wu, S. Mao, T. Yu, H. Jiang, Q. Ding

**006** Sexual dysfunction in patients with chronic pain
Ilan Gruenwald, Israel
R. Yehieli-Cohen, T. Adler, M. Haddad, E. Eisenberg

**007** Risk of erectile dysfunction in men who abuse use of Illicit drugs
Bang-Ping Jiann, Taiwan
A worse erectile function is observed comparing infertile with fertile men, and azoospermic with infertile normozoospermic men, the last case in relation to psychopathologic traits
Francesco Lotti, Italy
G. Corona, E. Maseroli, G. Castellini, E. Filimberti, M. Maggi

Characteristics of secondary, primary, and compensated hypogonadism in Caucasian-European men presenting for new onset erectile dysfunction – results of a cross-sectional survey
Eugenio Ventimiglia, Italy
S. Ippolito, P. Capogrosso, F. Dehò, G. La Croce, F. Montorsì, A. Salonia

Erectile function in 656 hypogonadal men with and without long-term treatment with testosterone undecanoate injections (TU)
Farid Saad, Germany
G. Doros, A. Haider, K. Haider, A. Traish

77 men with pre-existing cardiovascular disease (CVD) and hypogonadism show improved erectile function on long-term treatment with testosterone undecanoate injections (TU)
Farid Saad, Germany
G. Doros, A. Haider, K. Haider, A. Yassin, A. Traish

Is tadalafil superior versus vardenafil in management of erectile dysfunction?
Kim Drasa, Albania
E. Dani, V. Malaj, A. Haruni

will be presented in PS-04 as 016

Assessment of the treatment efficacy of the low-energy shock wave therapy in patients with vascular erectile dysfunction
Pavlo Aksonov, Ukraine
I. Gorynychchenko, M. Romaniuk

ED treatment by low intensity focused shock waves – a comparison of available devices and therapeutic techniques
Igor Motli, Czech Republic
T. Srmkova

Can intracavernosal botulinum toxin injection salvage vascular erectile dysfunction patients not responding to oral and intracavernous therapy? A pilot study
Hussein Ghanem, Egypt
I. Soliman, M. AbdullHamid, R. Shamloul

Early effect of bariatric surgery on urogenital function in morbidly obese male patients
Maha Aleid, United Kingdom
S. Cellek, A. Muneer, D. Ralph, M. Hashemi, S. Renshaw, J. George
(late breaking abstract)

Urethral surgery and its effects on sex life
Chairs: Salvatore Sansalone, Italy
Giorgio Franco, Italy

Ejaculatory consequences of urethral structure disease and urethral reconstruction
Enrique Liedo Garcia, Spain

Erectile dysfunction following anterior urethroplasty: why does it occur and is it temporary?
Duncan Summerton, United Kingdom

Surgical management of the urethra in gender reassignment
Giulio Garaffa, United Kingdom

Spongiofibrosis and Peyronie’s disease: common pathways, common future treatment targets?
Fabio Castiglione, Italy

Impact of metabolic and eating disorders on sexual function in men and women
Chairs: Giovanni Castellini, Italy
Elisa Maseroli, Italy

Cardiometabolic risk and female sexual health: the Princeton III summary
Martin Miner, USA

Central pathways integrating energy balance and reproduction: insights from the lab
Manuel Tene-Sempere, Spain

Sexual dysfunction in the female diabetic population
Stephanie Both, The Netherlands

Weight loss and lifestyle modification and effects on sexual dysfunctions
Antonio Aversa, Italy

Can intracavernosal botulinum toxin injection salvage vascular erectile dysfunction patients not responding to oral and intracavernous therapy? A pilot study
Hussein Ghanem, Egypt
I. Soliman, M. AbdullHamid, R. Shamloul

Early effect of bariatric surgery on urogenital function in morbidly obese male patients
Maha Aleid, United Kingdom
S. Cellek, A. Muneer, D. Ralph, M. Hashemi, S. Renshaw, J. George
(late breaking abstract)

CLOSING CEREMONY
16:30 – 17:00
ESSM Closing Ceremony
➤ ESSM Best Presentation Awards
➤ NRU Awards
➤ F1000 Poster Prizes
➤ Announcement of ESSM 2017 Congress
Poster Presentations

P-01 MALE SEXUAL DYSFUNCTION

002 Cavernous pericytes regulate erectile function and dysfunction
Jun-Kyu Suh, Republic of Korea

003 Investigation of prevalence status of erectile dysfunction based the subjects of late-onset hypogonadism in a Chinese community population
Wenhao Tang, China

004 Connection between the way adults perceive their sexuality, health condition and self-care
Justina Zelionkaite, Lithuania

006 Sex addiction: myth or reality
Dennis Lin, USA

007 Georgian clinical sexologists: who are they and who should they treat?
Zurab Marshania, Georgian

008 Promotion of positive sexual function with reinforcing positive sexual self-concept
Tayebe Ziaei, Islamic Republic of Iran
H. Farahmand Rad, M. Rezaei Aval, G. Roshandel

009 The relationship between sexual self-concept, sexual function with type of delivery
Tayebe Ziaei, Islamic Republic of Iran
H. Farahmand Rad, M. Rezaei Aval, G. Roshandel

010 Evaluation of blood platelet count and function in patients with erectile dysfunction
Mustafa Aldemir, Turkey
F. Akdemir, E. Okulu, K. Ener, A. Ózayar, A. Güdeloglu

011 Vascular and chronological age in subjects with erectile dysfunction: a longitudinal study
Giulia Rastrelli, Italy
G. Corona, E. Mannucci, M. Maggi

012 The importance of sexual functionality for patients undergoing cardiac rehabilitation due to ischemic heart disease
Dariusz Kalka, Poland
Z. Domagala, J. Gebala, L. Karpinski, M. Borecki, S. Grzeszczyk, J. Dulansowski, L. Rusiecki, E. Krauz, W. Pilecki

013 The first patient-focused smartphone application about erectile dysfunction also thought as a research tool: IDI application
Victor Soulier, France
A. Zoubian, J. Zoubian

014 Efficacy of PDE-5 inhibitors in erectile dysfunction after spinal cord injury
Charalampos Konstantinidis, Greece
Z. Kratiras, T. Alexandros, K. Panagiotis, C. Thomas, S. Konstantinos

015 Efficacy of PDE-5 inhibitors in erectile dysfunction due to multiple sclerosis
Zisis Kratiras, Greece
C. Konstantinidis, C. Thomas, K. Panagiotis, M. Konstantinos

016 Successful results of complex and gradual treatment of erectile dysfunction in patients with diabetes mellitus: Georgian experience
Zurab Marshania, Georgian
N. Katamadze, I. Burnadze

017 Therapeutic correction testosterone deficiency in hypertensive men with erectile dysfunction and depression
Elena Petrova, Russia
A. Shutov

018 Characteristics predicting multiple treatment modifications during treatment with PDE5 inhibitors – results of real-life observational study
Eugenio Ventimiglia, Italy
L. Boeri, S. Ippolito, P. Capogrosso, F. Dehò, F. Montorsi, A. Salonia

019 Necrotizing fungal infection after penile prosthesis implantation: case report
Mehmet Gökhan Çulha, Turkey
E. Erkan, U. Yucetas

020 Our experience of penile prosthesis implantation
Mehmet Gökhan Çulha, Turkey
U. Yucetas, E. Erkan, M. Kadihasanoglu, B. Mansuroglu, V. Sacak

021 Microbiological study of penile prosthesis after revision surgery
Begoña Etcheverry Giadrosich, Spain
J. Torremadé, X. Bonet, L. Pujol, L. Riera, F. Vigués

022 Our experience in managing of mechanical lesions of penile implants
Oleksii Kornienko, Ukraine
M. Romaniuk, S. Shamraev, N. Stepanenko

023 Penile length and girth restoration in patients with severe corporal fibrosis
Franklin Kuehhas, United Kingdom
P. Egydio
024 Treatment of prostate cancer and sexual rehabilitation when a nerve-sparing procedure is not feasible: placement of the reservoir for a three-component penile implant during robotic extra-aponeurotic radical prostatectomy
Carlo Ceruti, Italy

025 Vitamin D and Peyronie’s disease
Mario Pones, Austria
O. Theimer, A. Hartman, S. Hofbauer, K. Kirchheiner, M. Margreiter

026 ALEI II technique: minimally invasive technique for the correction of penile curvature without circumcision
Giovanni Alei, Italy
P. Letizia, A. Rossi

027 Reduction corporoplasty for aneurysmal corporal dilatation. Is it safe or feasible?
Judith Dockray, United Kingdom

028 Primary non-Hodgkin lymphoma of the penis: case report
Valerio Iacovelli, Italy
P. Shah, G. Vespasiani, R. Leonardi, S. Sansalone

029 Cutaneous horn of the glans penis associated with squamous cell carcinoma – case report
Zita Soos, Hungary
Z. Kopa

030 Penile prosthesis after phalloplasy: about 69 patients
Paul Neuville, France
N. Morel-Journel, A. Ruffion, P. Paparel, J.-E. Terrier

031 Treatment retrograde ejaculation organic and functional origin
Oleksandr Knigavko, Ukraine

032 Investigate the characteristics of premature ejaculation patients at Binh Dan Hospital
Dung Mai Ba Tien, Viet Nam
T. Le Vu, T. Dang Quan, P. Nguyen Ho Vinh

033 Possible factors affecting efficacy of dapoxetine 30mg treatment in Chinese patients with premature ejaculation
Jing Peng, China
Z. Zhang, Y. Yuan, B. Gao, W. Cui

034 Self-reported intromission times: a potential new tool for PE evaluation in Chinese men
Jing Peng, China
Z. Zhang, Y. Yuan, B. Gao, W. Cui

035 Efficacy and tolerability of dapoxetine in the treatment of Chinese patients with premature ejaculation
Lin Yang, China
X. Chen, D. He

036 Clinical characteristics and desired treatment outcomes of Chinese men with premature ejaculation
Zhichao Zhang, China
J. Peng, Y. Yuan, B. Gao, W. Cui

037 Does levofloxacin is more effective than ciprofloxacin in chronic bacterial prostatitis?
Mohsen Alemi, Islamic Republic of Iran
F. Torkaman Asadi

038 Large prostatic calculi may worsen erectile dysfunction and lower urinary tract symptoms in middle aged men
Sun Wook Kim, Republic of Korea
D. W. Sohn

039 Evaluation of radial extracorporeal shock wave therapy in the treatment of chronic pelvic pain syndrome
Pavel Turcan, Czech Republic
P. Pokorny, J. Kvintova, M. Prochazka

040 Penile prosthesis implantation after female to male total phallic reconstruction: a single-center retrospective analysis on 247 consecutive patients
Marco Falcone, Italy
G. Garaffa, A. Gillo, A. Raheem, F. De Luca, A. N. Christopher, D. J. Ralph

041 A single center analysis on the learning curve of male to female peno-scrotal vaginoplasty by multiple outcome measures
Marco Falcone, Italy

### WS-01 WORKSHOP
**08:00–09:00** Room Paris  
**Penile cancer: contemporary management and sexual consequences**  
**Chair:** Asif Muneer, United Kingdom  
**Speakers:** Asif Muneer, University College London Hospital  
Arie Parnham, University College London Hospital  

**Audience:** Physicians and surgeons treating men with premalignant and malignant penile lesions or the sexual complications of treatment.  
**Aim:** To provide an overview of the recognition and management of premalignant and malignant lesions of the penis.  

**Learning objectives**  
- Diagnose pre-malignant conditions and understand the referral criteria for definitive treatment  
- Gain an overview of the epidemiology and risk factors associated with penile cancer  
- Understand the rationale and techniques of penile preserving surgery  
- Appreciate the consequences of penile cancer treatment on sexual health and voiding function  

**Summary of contents:** Penile cancer is a rare malignancy, most frequently due to squamous cell carcinoma (SCC), where men often present late for medical attention and treatment. Early lesions can present to a range of specialists including GUM physicians, dermatologists, urologists and primary care physicians. The premalignant stage can present with subtle changes on the glans penis or foreskin which may interfere with sexual intercourse due to pain or lichen sclerosus induced phimosis. The progression rate for carcinoma in situ to SCC is up to approximately 30% and can be treated effectively by topical therapies and circumcision without any long term consequences to erectile or ejaculatory function. However, invasive penile SCC requires more radical treatment although the contemporary management has moved away from performing partial or total penectomy where possible. Penile preserving surgery using techniques such as glans resurfacing and glansectomy together with reconstruction using skin grafts aim to preserve the penile length and the erectile function such that both penetrative intercourse and voiding whilst standing are preserved. As the cancer can spread to the inguinal lymph nodes, radical inguinal node surgery can result in significant lymphoedema of the genitalia which can now be limited by offering dynamic sentinel node biopsy to patients with high risk disease.

### WS-02 WORKSHOP
**09:00–10:00** Room Paris  
**Sex in the disabled**  
**Chair:** Woet L. Gianotten, The Netherlands  
**Speaker:** Woet L. Gianotten, MD-psychotherapist, consultant in physical rehabilitation sexology, the Netherlands  

**Audience:** Medical and paramedical professionals dealing with physical impairment (disabilities) and professionals treating sexual disturbances  
**Aim:** To raise attention for the sexual (unmet) needs of patients with physical disabilities and improve the professional clinical skills to deal with the combination of disability and sexual impairment.  

**Learning objectives**  
- To become aware of the many levels of taboo on sex and handicap (in society, in the patient and in the professionals)  
- To understand, in patients with a disability, some of the causal and maintaining factors behind disturbed sexuality and intimacy  
- To become familiar with practical skills for better dealing with sexual and intimacy aspects of various disabilities  

**Summary of contents:** Although society and the media tend to remind us that sex is only for the young, the healthy and the beautiful, patients don't stop being sexual beings when they get disabled.  

Even in case of very serious disabilities (for instance high spinal cord injury), many patients and many partners continue to desire intimacy and sexual expression. At the same time many physical disabilities are accompanied by neurological, anatomical, endocrinological, cerebral and metabolic changes that tend to mess up sexual function, sexual identity and sexual relationship. The workshop will offer some practical skills and will indicate how dealing with sexuality can improve both the sexual quality of life of patient or couple and the professional relationship with them.
WS-03 WORKSHOP
08:00–09:00 Room Paris
Hypoprolactinemia
Chair: Giovanni Corona, Italy
Speakers: Linda Vignozzi, Italy
Giulia Rastrelli, Italy

Audience: Physicians and psychologists treating men and women with sexual dysfunctions.

Aim: To help clinicians in correctly recognizing, diagnosing and treating hypoprolactinemia in men and women.

Learning objectives
- To understand the sexual consequence of hypoprolactinemia in men and women
- To understand the possible physiological and pathological causes of hypoprolactinemia in men and women
- To be able to correctly recognize the most important medications possible underlying hypoprolactinemia
- To be able to manage and treat male and female hypoprolactinemia

Summary of contents: In contrast to the well known role of prolactin (PRL) in female reproduction (i.e. promoting breast feeding), the physiological role of PRL in male reproduction is still obscure. Nevertheless, several data have documented that hypoprolactinemia can impair male and female sexual desire most probably acting on hypothalamic GnRH (and therefore on sex steroid production) and/or dopamine production and turnover. Hence, correctly recognize and treat hypoprolactinemia is mandatory for physician dealing with sexual problems.

A physiological mild raise in PRL plasma levels can occur during orgasm as well as during other emotional, stressful, or disturbing conditions (including venipuncture) or following stimulation of the nipple or areola. Besides these physiological conditions, disruption of the hypothalamic dopaminergic inhibition or perturbation of portal circulation, as with sellar or parasellar tumors, might also cause hypoprolactinemia. The same condition can be associated with primary hypothyroidism or with the use of drugs blocking dopaminergic (antipsychotic and antiemetic) or increasing serotoninergic (antidepressants) transmission.

Since severe hypoprolactinemia represents a quite a rare condition in patients seeking medical care for sexual dysfunction (< 2%), current guidelines do not recommend a widespread evaluation of PRL levels in patients seeking medical care for sexual dysfunction. Conversely, PRL should be measured in all subjects complaining of reduced sexual desire or in all women complaining of menstrual cycle abnormalities. If a specific underlying disorder can be identified, therapy should be targeted at that disorder. According to current guidelines in symptomatic patients with suspected drug-induced hyperprolactinemia, the discontinuation of the medication for 3 days or substitution of an alternative drug, followed by remeasurement of serum PRL is recommended. Surgery is required in the presence of hypothalamic-pituitary tumours whereas medical therapy is based on the use of dopamine-agonist agents.

WS-04 WORKSHOP
09:00–10:00 Room Paris
Intersex challenges – caring for families and individuals with diverse sex development (dSD)
Chair: Katinka Schweizer, Germany

Audience: Physicians and psychologists involved in or interested in getting involved in caring for patients with intersex conditions (dSD/diverse sex development) and their parents and families.

Aim: To help and encourage clinicians in their clinical work with patients affected by an intersex condition and to draw attention to the paradigm shift in standards of care

Learning objectives
- To learn which conditions are considered as DSD / dSD
- To get sensitive for the significance of careful language, terminology and information management in managing dSD
- To become familiar with practical communication skills in informing patients on a DSD diagnosis
- To be able to support patients and families affected in learning to live with an intersex condition and/or diverse sex characteristics
- To be able to assist patients and parents in dealing with ethical dilemmata and decision-making
- To recognize the importance of psychosocial care, support groups and peer-to-peer counselling (e.g. breaking out of isolation)
- To become familiar with the political and legal situations in different European countries
Summary of contents: DSD (diverse sex development) is an umbrella term for a variety of congenital conditions of atypical development of sex characteristics, formerly called intersex conditions. They include XY-chromosomal (e.g. Androgen insensitivity, AIS) and XX-chromosomal conditions (e.g. Congenital Adrenal Hyperplasia, CAH) as well as Sex Chromosome DSD (e.g. Gonadal Dysgenesis).

Families and individuals affected may face manifold challenges. Good clinical care, social support and empowerment are crucial in order to overcome isolation and to learn to communicate and to accept the condition.

The workshop gives an overview on current classification and terminology. It shows how management policies have changed within the past decades. While in the past, medical interventions such as genital surgery and gonadectomies were usually applied during infancy, early “sex-corrective” procedures have received growing criticism from adult patients. Meanwhile a paradigm shift has been initiated: children’s and patients’ rights receive more attention. The focus has shifted towards bodily integrity, managing ambiguity and accepting variety rather than aiming for an “optimal gender”.

Despite the visible paradigm shift, patients still face severe problems in medical and psychosocial care: These include (1) the neglect of the existing uncertainties regarding adult gender identity development in many DSD. (2) the enmeshing of decisions regarding social gender allocation and medical sex assignment and the (3) the restrictions imposed by a dichotomous view on gender development and the pathologising of non-binary gender expressions. Clinicians should be aware of these problems to best support their patients.

Ways of supporting patients and their parents are demonstrated, e.g. by evaluating what is medically and psychosocially necessary and what not, and by learning to communicate adequately in their families and peer groups.
Lessons from the experts beyond the EBM (evidence based medicine)

**WS-06 WORKSHOP**

**08:00 – 09:00**

**Difficult cases in psychogenic ED: from diagnosis to treatment**

Chair: Paraskevi-Sofia Kirana, Greece

*Introduction:* The available research data on interventions for the treatment of psychogenic erectile dysfunction, show that there is a large heterogeneity of therapeutic strategies been employed, the number of outcome studies is very small, and also, most of the studies have important methodological problems. Therefore, although sexologists today have a very wide range of tools they could possibly use, the evidence base is extremely small.

*Aim:* The aim of the workshop is to help physicians improve skills to manage psychogenic ED cases.

*Learning objectives*

- To interpret sexual history, to design patient centered treatment plans through a biopsychosocial framework, and also, to implement parts of the treatment through a staged approach, according to the therapist’s comfort level. The above will be demonstrated for a series of challenging cases of psychogenic ED. Issues of personality characteristics, couple problems and also solo men will be discussed.

**WS-07 WORKSHOP**

**09:00 – 10:00**

**Sexual consequences of sexual transmitted infections (STI)**

Chair: Yacov Reisman, The Netherlands

*Audience:* Physicians, physician assistants and psychologists treating men and women with sexual dysfunctions or STI.

*Aim:* To help clinicians to tailor their daily clinical practice to some of the possible sexual consequences of having a STI.

*Learning objectives*

- To get basic knowledge about the most prevalent sexually transmitted diseases
- To recognize some of the most prevalent sexual consequences of having a STI
- To be aware about the possible consequences and need of this neglected subject

*Summary of contents:* Sexually transmitted infections (STIs) are among the most common infectious diseases known today. In 1999, the WHO estimates that 340 million new cases of syphilis, gonorrhea, chlamydia and trichomoniasis occurred throughout the world in men and women aged 15–49 years.

As part of the clinical interview, health care providers should routinely and regularly obtain sexual histories from their patients as to whether they are actually affected by an STI or show an increased risk for getting STIs because of their profession or lifestyle and should address management of risk reduction. During counseling of patients with STI, client-centered approach need to be given which aim at risk reduction for the patients and their partners but also aimed on the general well-being of the patient.

The consequences of STI’s could be radical; some are incurable, some can cause cancer, some can affect fertility, but many can also have profound consequences for sexuality and intimacy as people who have had a STI are more likely to suffer from sexual dysfunction later in life.

During the workshop these consequences will be addressed on the hand of case descriptions.
WS-08 WORKSHOP
10:30–11:30 Room Paris
Difficult cases of ejaculatory disorders: practical tips
Chairs: Emmanuele A. Jannini, Italy
        Ege Can Serefoglu, Turkey

Audience: Experts in sexual medicine, andrology, medical sexology and psychosexology, treating male ejaculatory dysfunction (EjD) patients and their partners

Aim: To help clinicians tailor their practice by taking a biopsychosocial perspective in diagnosing EjD and applying a comprehensive treatment plan including both evidence based (EB) and non-EB treatments.

Learning objectives
- To increase the awareness of the definition and frequency of EjDs
- To be capable of taking a sexual history of patients with EjDs
- To be capable of communicating with EjD patients and their partners
- To understand the biological, psychological and relational factors contributing to EjDs
- To know the evidence concerning EB and non-EB treatments for EjD
- To individualize the best tailored treatment and counseling in couples with EjD

Summary of contents: EBM in the field of sexual medicine is almost completely grown on the basis of large clinical trials on phosphodiesterase type 5 inhibitors (PDE5i). However, erectile dysfunction (ED) is not the most prevalent male sexual dysfunction as recent epidemiological studies demonstrated that ejaculatory dysfunctions (EjDs) are the more common than erectile problems.

The availability of the first oral medicine (dapoxetine) developed to treat premature ejaculation (PE) increased the scientific attention on this common problem in the last decade. However, several points – that will be discussed, in the light of practical tips, in the workshop – are still obscure. The treatment of the comorbidity of PE and ED is still an unmet clinical need, as well the relationship between PE and sexual desire or the importance to induce female sexual dysfunction (FSD) in the couple with PE. Furthermore, there is a paucity of data regarding the other types of EjDs such as delayed ejaculation, retrograde ejaculation or anejaculation and their management will be discussed on the basis of the clinical experience of the experts.

WS-09 WORKSHOP
11:30–12:30 Room Paris
Infertility and sexuality: why and how to pay attention
Chair: Ates Kadioglu, Turkey

Speakers:
Saturnino Lujan, Spain
Ahmet Gökçe, Turkey

Pick-up time: clinical tips and lessons from the experts

Aim: Despite the accepted association of infertility and sexual dysfunction, only 5% of the infertility cases are caused by sexual dysfunction. The sexual dysfunction originated causes of infertility may be a.o. erectile dysfunction, inability to ejaculate for males and vaginismus for females. Sexual life of infertile couples are greatly disturbed by both infertility and its treatment. The loss of sexual spontaneity, direct linkage of sex into pregnancy without entertainment, decreased self-esteem and body image of the individuals are the suggested reasons of sexual dysfunctions in infertile couples. The sexual dysfunction problem is increased by the relation-ship problems of couples and negative influence of hormonal treatment. Our objective is to improve the participant’s awareness about this cause-effect relations and furthermore prepare our colleagues for the diagnosis and prevention of this clinical problem.

Learning objectives
- The awareness of the bidirectional link of sexual dysfunction and infertility
- Assessment and prevention of possible risk factors
- Investigating both male and female aspects of this phenomena
- Diagnosis and management of sexual dysfunction in infertile couples
- Update the literature knowledge of the attendees about the subject
- Application of the obtained skill set to their clinical practice

Male infertility and sexual dysfunction (prevalence, diagnosis, treatment) (25 min)
Saturnino Lujan, Spain

Female infertility and sexual dysfunction (prevalence, diagnosis, treatment) (25 min)
Ahmet Gökçe, Turkey

Questions-Answers (10 min)
# ESSM Exam Preparation Courses Program

The courses are intended for physicians with experience of specialist-level practice in Sexual Medicine who wish to increase their chance of passing the MJCSM exam and for psychologists who intend to apply for the EFS / ESSM qualification exam for Psycho-Sexologists.

THE POWER OF INHIBIZONE™

150,000
PATIENTS & COUNTING

Proven Protection. Period.

Since the launch of InhibiZone™ Antibiotic Surface Treatment in 2001, over 150,000 patients have received an AMS 700™ Penile Prosthesis with InhibiZone Treatment.¹

The AMS 700 Prosthesis with InhibiZone Treatment is the only FDA approved implant with clinical evidence showing a significant reduction in the rate of revision surgery due to infection.²

14 years of data and experience | 13 peer reviewed clinical studies | 186 abstracts and papers³

Prior to use, please review the Instructions for Use for a complete listing of indications, contraindications, warnings, precautions and potential adverse events. Caution: Federal law restricts this device to sale by or on the order of a physician. This product is only intended for physicians trained in its use. Indications: The AMS 700™ Series Inflatable Penile Prosthesis is intended for use in the treatment of chronic, organic, male erectile dysfunction (impotence). Contraindications: Patients who have active urogenital infections or active skin infections in the region of surgery or for the AMS 700 prosthesis with InhibiZone™, have a known sensitivity or allergy to rifampin, minocycline, or other tetracyclines. Warnings: Implantation will make latent natural or spontaneous erections, as well as other interventional treatment options, impossible. Men with diabetes, spinal cord injuries or open sores may have an increased risk of infection. Implantation may result in penile shortening, curvature, or everture. Potential Adverse Events: Urogenital pain (usually associated with healing), edema, ecchymosis and erythema; reservoir encapsulation; patient dissatisfaction; auto-inflation; mechanical malfunction; impaired urination; and infection.

**CONGRESS VENUE**

Palacio Municipal de Congresos de Madrid  
Camp de las Naciones  
Avenida de la Capital de España Madrid, n° 728042  
Madrid, Spain

**CONGRESS REGISTRATION COUNTER**

All congress materials and documentation will be available at the congress registration counter located in the entrance area of the Palacio Municipal de Congresos. The congress staff will be pleased to help you with all enquiries regarding registration, congress material and congress program. Please do not hesitate to contact the staff members if there is anything they can do to make your stay more enjoyable.

**Opening Hours**

- **Thursday, 4 February 2016**: 07:00 – 18:00
- **Friday, 5 February 2016**: 07:30 – 18:00
- **Saturday, 6 February 2016**: 07:30 – 17:00

During opening hours the congress counter can be reached by phone at: +34 – 902 – 018220.

**REGISTRATION FEES**

Registration fee for participants includes:
- Admission to all scientific sessions and workshops
- Admission to poster and technical exhibition
- Admission to the ESSM opening ceremony and networking reception on 4 February 2016
- Conference materials, such as delegate bag, final program
- Morning and afternoon coffee breaks from Thursday to Saturday

* A letter of the Chairman of the department is necessary.  
** Upon provision of according confirmation of their department.

**PUBLICATIONS FOR PROCEEDINGS**

The European Society for Sexual Medicine retains the right to publish all material presented at the congress in an ESSM publication.

**ABSTRACT PUBLICATION**

Accepted abstracts that are presented during the congress will be published in the online JSM supplement available from end of March 2016. Accepted abstracts that are not presented by the author or a presenter will not be published in the JSM online supplement.

Abstracts will also be published in CO CONGRESS ONLINE® from one day prior to the congress (3 February 2016) on the congress website and on CONGRESS MOBILE®, the congress app.

**CO CONGRESS ONLINE®**

For the 18th ESSM Congress 2016 the web based congress information system CO CONGRESS ONLINE® has been set up again at www.essm-congress.org.

CO CONGRESS ONLINE® offers an extensive congress service and provides you with information on:
- Up-to-date information about the preparation of the congress
- List of topics
- Call for oral presentations, posters and videos
- Preliminary and final scientific program
- Accepted abstracts
- List of exhibitors
- Acknowledgements of sponsors
- Congress venue
- City of Madrid
- Hotel accommodation
- Travel to Madrid
- News and updates
PROGRAM CHANGES

ESSM cannot assume liability for any changes in the congress programme due to external or unforeseen circumstances.

SPEAKERS CENTRE

The speakers centre is located in room Luxembourg on level 1 of the Palacio Municipal de Congresos. Speakers are asked to hand in their CD ROM or USB stick, containing the PowerPoint presentation (IBM format or compatible, no multisession) preferably one day before their presentation but at least 90 minutes prior to the presentation. The presentation will be transferred to the central congress server and will be available afterwards on a special congress notebook in the hall of the presentation. Due to time and technical reasons we kindly ask the speakers not to use their own notebook. Several PC working stations are provided in the speakers centre where speakers can also work on their PC charts in a quiet area. Technical staff will be glad to assist.

Removal: Saturday, 6 February 2016 | 15:00 – 17:00

Posters that have not been removed by the respective time will be disposed of. Poster material to put up the poster is available at the poster desk close to the poster areas during the hanging. Alternatively you will get the poster material at the counter.
General Information

**ESSM MEMBERSHIP ISSUES**
For ESSM membership issues and any other ESSM business, please contact our ESSM booth which is situated in the exhibition area in front of the Auditorium A of the Palacio Municipal de Congresos.

**COFFEE BREAKS AND LUNCHES**
Coffee and tea will be served during the morning and afternoon, daily from Thursday, 4 to Saturday, 6 February 2016 free of charge to all participants wearing congress name badges. A daily snack lunch as well as coffee breaks will be served in the exhibition area. The congress venue also provides a restaurant on the ground floor next to the exhibition.

**CLOAKROOM**
A cloakroom free of charge is available in front of Auditorium A of the Palacio Municipal de Congresos. Delegates can also store their luggage here.

**PRAYERS ROOM**
There is a room set apart for prayers. It is a quiet place, where delegates may withdraw to see divine strength and guidance. The prayers room is located behind the Auditorium A. Please follow the signage.

**EMERGENCY AND FIRST AID**
In the case of emergency please address the staff at the registration counter in the entrance area of the Palacio Municipal de Congresos. The attentive staff will be pleased to help.

**RECORDING**
Cameras, video cameras or audio recording devices are not permitted in the session rooms. Any recording of sessions is strictly forbidden.

**SMOKING**
The Palacio Municipal de Congresos is a non-smoking venue. Smoking is prohibited within the congress venue.

**VISA**
The entry formalities for Spain vary according to the country of origin. Please address enquiries about entry and vaccination to your travel agent or the local Spanish consulate. Further information can also be found at www.spain.info/en/

**INSURANCE**
The congress fee does not include insurance. All participants should arrange for their own insurance. Health and accident insurance is recommended and has to be purchased in your country of origin.

**FORCE MAJEURE**
For reasons beyond its control (such as war, strikes, lockouts, riots or any such civil disturbances, any acts of god, including but not limited to earthquakes, floods, droughts and typhoons and any other cause of circumstance of whatsoever nature beyond control) that have an impact on the arrangements, timetables or planning of the 18th Congress of the European Society for Sexual Medicine and its corresponding activities in Madrid, Spain, ESSM has the right to immediately alter or cancel the activities or events or any of the arrangements, timetables, plans or other items relating directly or indirectly thereto. No party involved shall be entitled to any compensation for damages that result from such alteration or cancellation.

**TIME**
During winter time from November to March the time zone in Spain is CET (Central European Time or UTC+01:00).

**CURRENCY**
Euro (EUR/€) is the official currency of Spain. Major credit cards are generally accepted by most of the hotels, restaurants and shops.

**CLIMATE**
The average temperature is approx. 7°C with a very pleasant high of 12°C, and an evening low of around 2°C. In January/February rain is quite prevalent compared to other months in Madrid.
BANK AND ATM
Most banks in Spain have automated teller machines (ATMs) that give cash advances on foreign cards, such as VISA, Cirrus, Citibank, and American Express.

ELECTRICITY
The local voltage is 230 V with C & F plugs. A voltage converter and plug adapter is needed for US appliances.

SAFETY
Please make sure to take off your name badge and congress bags when you go sightseeing in downtown Madrid. Wearing the name and bag identifies you as a tourist which might attract pickpockets.

PALACIO MUNICIPAL DE CONGRESOS DE MADRID
The 18th ESSM Congress will take place in the Palacio Municipal de Congresos de Madrid which is located in Campo de las Naciones, the centre for business development in Madrid between the city centre and the international airport Madrid Barajas. It is a modern and light-filled building with good access to the public transportation system of Madrid.

MADRID
Madrid is the capital of Spain. With 3,2 Million citizens, it is the third largest City of the European Union. It is located on the Manzanares River in the centre of both the country and the Community of Madrid. As the capital city of Spain, Madrid is the seat of government, and residence of the Spanish monarch. It is also the political, economic and cultural centre of Spain.

While Madrid possesses a modern infrastructure, it has preserved the look and feel of many of its historic neighbourhoods and streets.

Its landmarks include the Royal Palace of Madrid, the Royal Theatre with its restored 1850 Opera House, the Buen Retiro Park, founded in 1631, and the 19th century National Library building (founded in 1712) containing some of Spain’s historical archives. It offers a large number of national museums, and the Golden Triangle of Art, located along the Paseo del Prado, comprising three art museums: Prado Museum, the Reina Sofia Museum, a museum of modern art, and the Thyssen-Bornemisza Museum.

HOW TO GET TO THE MUNICIPAL CONFERENCE CENTRE MADRID
From the Airport
Madrid Barajas airport is located only 10 minutes from the exhibition complex, and just 15 kilometers from the city centre, with which it is connected by Metro (Airport station T-1 – T-4).

By Metro
Access to the Municipal Conference Centre is possible from anywhere in the city by means of Campo de las Naciones station on Line 8, whose exit is at the South Entrance of the complex. Line 8 also connects the exhibition complex with the different terminals of Barajas International Airport.

By Bus
A wide bus network provides access to the Municipal Conference Centre from different areas in the city:

</table>

Simple Ticket: EUR 1,50
Express Ticket Airport: EUR 5,00
10 travels bonus: EUR 12,20
(Prices as of January 2016)

Please book your tickets through the congress website and get a 30% discount on a Madrid Travel Pass.

By Taxi
Madrid composes of more than 15,000 taxis. The rate from the airport to the venue is approx. EUR 20. The rate from the airport to the city is EUR 30.

By Car
The Municipal Conference Centre in Madrid is linked by road to Madrid’s major access routes and ring roads: the M11 (Exits 5 and 7), the M40 (Exits 5, 6 and 7) and the A2 (Exit 7). The South, North and East Entrances to the exhibition complex provide direct access to various parking areas.

### SA-02 INDUSTRY SPONSORED SYMPOSIUM

**17:30 – 18:00**  
**Auditorium A**

**Dornier Aries – a new treatment option for organic ED**

**Chair:** Hartmut Porst, Germany

**Speakers:**  
Walaa Khaled, Germany  
Peter Lyngdorf, Denmark  
Dimitris Hatzichristou, Greece

**Supported by an educational grant from Dornier MedTec.**
Industry Sponsored Sessions | Friday, 5 February 2016

LV-02 LIVE SURGERY SESSION
08:00 – 11:00 Room Madrid

Surgical symposium of four cases
Broadcasted from La Zarzuela Hospital in Madrid.

Moderators at venue:
- Wayne J. G. Hellstrom, USA
- Lawrence Scott Hakim, USA

Moderator at hospital:
- Juan Ignacio Martinez-Salamaca, Spain

OR #1
- Case 1: Inflatable penile prosthesis AMS 700
  Surgeon: Ignacio Moncada, Spain
- Case 2: Double implant of artificial urinary sphincter AMS800 + inflatable penile prosthesis AMS 700
  Surgeon: Ignacio Moncada, Spain

OR #2
- Case 1: Artificial urinary sphincter AMS 800
  Surgeon: Gerald Henry, USA
- Case 2: Inflatable penile prosthesis AMS 700 + advance sling for incontinence
  Surgeon: Gerald Henry, USA

Supported by an educational grant from Boston Scientific.

005 Immediate penile prosthesis insertion after failed T shunt and snake maneuver in patient with prolonged ischemic priapism
  Evangelos Zacharakis, United Kingdom

006 Treatment of urethral strictures in patient with balanitis xerotica obliterans (BXO) using buccal musculocutaneous graft
  Omid Sedigh, Italy

007 Simultaneous implantation of male sling and inflatable prosthesis in the post-prostatectomy patient
  Agustin Fraile Poblador, Spain

008 Corporoplasty using buccal musculocutaneous graft in Peyronie’s disease
  Alessandro Zucchi, Italy

Supported by an educational grant from COLOPLAST.

VS-01 VIDEO SURGERY COURSE
14:00 – 15:30 Room Madrid

Industry sponsored Video Surgery Course

001 Penile prosthesis complication management tips.
  Distal penile shaft reconstruction and reinforcement: the „double-windsocks“ technique
  Paulo Egydio, Brazil

002 Total phalloplasty using a musculocutaneous latissimus dorsi (MLD) free flap
  Miroslav Djordjevic, Serbia

003 Transurethral resection of ejaculatory duct for ejaculatory duct obstruction treatment: monopolar, bipolar or holmium laser?
  Selahittin Cayan, Turkey

004 Recurrent hypospadias surgery: potpourri
  Rados Djinovic, Serbia

005 Immediate penile prosthesis insertion after failed T shunt and snake maneuver in patient with prolonged ischemic priapism
  Evangelos Zacharakis, United Kingdom

006 Treatment of urethral strictures in patient with balanitis xerotica obliterans (BXO) using buccal musculocutaneous graft
  Omid Sedigh, Italy

007 Simultaneous implantation of male sling and inflatable prosthesis in the post-prostatectomy patient
  Agustin Fraile Poblador, Spain

008 Corporoplasty using buccal musculocutaneous graft in Peyronie’s disease
  Alessandro Zucchi, Italy

Supported by an educational grant from COLOPLAST.

SA-03 INDUSTRY SPONSORED SYMPOSIUM
12:00 – 13:30 Auditorium A

Experts' secrets in male sexual dysfunctions

Chair: Dimitris Hatzichristou, Greece

Speakers:
- Hartmut Porst, Germany
- Yacov Reisman, The Netherlands
- Emmanuele A. Jannini, Italy
- Evie Kirana, Greece

12.00 Case 1
  PDE5-Is and side effects – what is the price that the patient has to pay?
  Open discussion

12.30 Case 2
  When more is not enough
  Open discussion

13.00 Case 3
  When the moment comes
  Open discussion

Industry sponsored Satellite Symposia by The Menarini Group.
**SA-04  INDUSTRY SPONSORED SESSION**

12:30–13:30 Auditorium A

Cases that matter

Chairs: Hartmut Porst, Germany
Yacov Reisman, The Netherlands
Pedro Vendeira, Portugal

001 Integrated therapy of erectile and ejaculatory dysfunction in a patient with multiple sclerosis
Michal Lew-Starowicz, Poland

002 45 year-old woman referred due to low sexual desire and altered orgasms at the background of dyspareunia, which has gained ground for the last 2 years
Oksana Romashchenko, Ukraine

003 High flow priapism secondary to arteriocavernosal fistula caused by penile prosthesis implantation mimicking autoinflation
Enrique Fes, Spain

004 Infertility and erectile dysfunction as the only clinical signs of an undiagnosed 30-year old Klinefelter patient
Zisis Kratiras, Greece

*With support of the HCP SCHOLARSHIP Program by Eli Lilly and Company.*

**RT-19  INDUSTRY SPONSORED ROUND TABLE**

14:00–15:15 Auditorium A

Ejaculatory and orgasmic dysfunction 2016

Chairs: Marcel D. Waldinger, The Netherlands
Chris G. McMahon, Australia

001 Orgasmic disorders as a neglected side effect of radical prostatectomy: underestimated?
Jens Sønksen, Denmark

002 Dapoxetine in the real-life setting: the PAUSE study highlighted
Paolo Verze, Italy

003 Delayed ejaculation and anorgasmia in the male: difficult to treat?
Selahittin Cayan, Turkey

004 The human spinal generator of ejaculation: implications for future treatment of PE?
Francois Giuliano, France

*Supported by an educational grant from The Menarini Group.*

Benefits from Becoming an ESSM Member

- ESSM offers its members a permanently updated web-site with different forums and a monthly update of the whole scientific literature of Sexual Medicine, Andrology and related medical disciplines.

- ESSM provides its members quarterly newsletter, ESSM Today which features the most recent news in the field of Sexual Medicine and focuses on key topics of interest to physicians in the field.

- ESSM has supported the creation of the Multidisciplinary Joint Committee on Sexual Medicine (MJCSM) that is working under the auspices of the European Union of Medical Specialists (UEMS). MJCSM’s objectives are to study, promote and harmonize the highest level of Sexual Medicine in Europe – both on the basic and postgraduate level. The MJCSM will determine the standards for training and assessment in Sexual Medicine. Successful candidates will be awarded on behalf of the MJCSM the title of “Fellow of European Committee on Sexual Medicine (FECSM).

- Since 2007 ESSM has offered interested ESSM members the participation in a course of the European School of Sexual Medicine. Since 2013 the course is held in Budapest with the participation of more than 30 students from all over the world, supervised by the School Directors Yacov Reisman and Francesca Tripodi.

- Besides this structured course ESSM offers at its annual congresses both instructional courses related to topics of interest in Sexual Medicine and Master Courses covering the key contents of the ESSM educational program.

- ESSM provides to its members important research grants which all members are welcome to apply for according to eligibility criteria. These are intended to further research into any aspect of Sexual Medicine and are awarded with a maximum of EUR 30,000.00 each for a maximum of 18 months project duration.

- ESSM recognizes that basic scientists who are not actively engaged in clinical work in sexual medicine field may have had difficulty finding funds to attend the ESSM Annual Congresses.

- Fellowship support options are available either on individual application, supported by the National Affiliated Societies or by applying to different initiatives supported by the ESSM and open for members to apply upon invitation.

Take Your Chance – Become a Member of ESSM, Now!

Seize the day, or in Latin Carpe diem and become a member of ESSM now, to take all the advantages and benefits of ESSM membership.

There are two levels of ESSM membership available:

**ESSM/ISSM Membership**
A combined ESSM/ISSM membership (annual fee 160 EUR) for both Sexual Medicine Societies (ESSM/ISSM) including all ESSM and ISSM membership related services, including a subscription to the Journal of Sexual Medicine which is the monthly journal of the ISSM (International) and ESSM (European), and is the leading Journal in the field of Sexual Medicine. In addition there are reduced registration fees for all ISSM/ESSM related congresses.

**ESSM only Membership**
ESSM only membership (annual fee 50 EUR – reduced to 25 EUR for residents in training) which includes the ESSM official Scientific and Social periodical, the „ESSM Today“, full access to the new comprehensive ESSM website: www.essm.org (including regularly updated scientific material, monthly updated literature reviews, the most recent guidelines, lecture recordings and presentations from past ESSM congresses), the opportunity to participate in the ESSM educational programs, and to apply for scientific and support grants and a reduced fee for the ESSM annual congress.

Formal ESSM membership applications can either be submitted directly to the ESSM or through one of the national ESSM affiliated societies. The ESSM Executive Committee is responsible for the approval of the membership application.

**ESSM Annual Membership Fees** (January to December)

Low testosterone?

TESTIM restores testosterone levels, producing significant improvement in sexual function and mood as well as increased BMD and improved lean body mass.

Prescribing Information: Testim® (testosterone) 50mg Gel. Please consult the full Summary of Product Characteristics before prescribing. Name of Product: Testim® (testosterone) 50mg Gel. Composition: One tube of 5 g gel contains 50 mg testosterone. Testim® is a clear to translucent gel. Indications: Testosterone replacement therapy for male hypogonadism when testosterone deficiency has been confirmed by clinical features and biochemical tests. Dosage and administration: Recommended starting dose: One tube of 5 g gel daily. If serum testosterone levels are below the normal range, the dose may be increased from 50 mg (one tube) to 100 mg (two tubes) once daily. Once opened apply the entire content of the tube immediately to clean dry intact skin of the shoulders and/or upper arms, preferably in the morning. Wash hands immediately after use. Do not apply to the genital area. Not for use in women. The gel may be transferred to others by skin contact, which could lead to adverse reactions (inadvertent androgenisation) by repeated contact. Inform the patient about the transfer risk, which can be prevented by covering or washing the site before contact. Testim® gel should not be prescribed for patients who may not comply with safety instructions (e.g. severe alcoholism, drug abuse, severe psychiatric disorders). The content of the tube is flammable. Testim® contains propylene glycol which may cause skin irritation. Side effects: Common (1% to <10%): Application site irritation. Uncommon (0.1% to <1%): Hot flushes/flushing, pruritus and peripheral oedema, headache, sleep disorders. Rare (<0.01% to not known): Azoospermia. Other known reactions to testosterone are: Prostate cancer, electrolyte changes, decreased libido, anxiety, emotional liability, generalized paresthesia, nausea, jaundice and liver function test abnormalities, hirsutism, alopecia, seborrhoea, hypertension, muscle cramps, increased frequency of erections, palmar, postural abnormalities, altered blood lipids levels (including reduction of HDL cholesterol), and weight gain. Presentation: Testim® is supplied as a Carton containing 30 x 5 g tubes. Marketing Authorisation Number: 01194/0109. Marketing Authorisation Holder: Ferring Pharmaceuticals Ltd., Drayton Hall, Church Road, West Drayton, UB7 7PS. Date of preparation: April 2014. Testim® is a registered trademark. Adverse events should be reported. Reporting forms and information can be found at www.mhra.gov.uk/yellowcard. Adverse events should also be reported to Ferring Pharmaceuticals Ltd. Tel: 0844 931 0050. Email: medical@ferring.com
