Welcome Address

Yacov Reisman

Dear ESSM members, Congress participants, Colleagues and Friends,

On behalf of the European Society for Sexual Medicine (ESSM) and the Society for Sexual Medicine of Slovenia (SSMS) it is a great pleasure for us to welcome you all to the 21st Congress of the ESSM in Ljubljana.

Ljubljana is the beautiful capital of Slovenia and sometimes called 'little Prague'. You can enjoy the authenticity of the old town with its many squares and monuments and the small scale of the center, where all major attractions are within easy reach.

The local organizing committee have made great effort to welcome you with warm hospitality. They have provided an outstanding support to the organization of the meeting.

Dejan Bratus

ESSM is now the largest branch of ISSM and the European contributions to the field of Sexual Medicine are unanimously recognized. We are sure that you will enjoy the scientific program that is encompassing all the hottest topics in sexual medicine. The congress aims to deliver optimal scientific and educational content and to promote the field of Sexual Medicine. The program will cover topics regarding all sexes and all sexual orientations as well as state-of-the-art educational opportunities. The most recent innovative research will be highlighted. To achieve this and to build bridges between generations, the faculty will include both renowned experts and up-coming stars in our field. Furthermore, it's the first time that ESSM statements on clinical issues, to help you in your clinical work, will be presented. We wish to create more networking opportunities especially for young researchers and health care providers with an interest in Sexual Medicine and the Young Sexual Medicine Academy session is organized already on the first day, so join us there as well.

Do not miss the opportunity to visit the ESSM booth during the congress. Your opinion on the content of the congress and your expectations from the ESSM are important to us. But it is also a possibility to learn about the new educational activities and to support our joint petitions with MJCSM and EFS to the European Community.

The exhibition area will have numerous booths of the companies which have supported ESSM and we invite you all to spend your free time during breaks among sessions to visit them and learn more about their products.

We also want to take the opportunity to invite you to the opening ceremony followed by a get-together at the congress venue to socialize with your colleagues and friends. As 14th of February is Valentine 's Day and is the first international Sexual Medicine congress in Ljubljana, we use this opportunity to invite you to a large public Sexual Health Awareness Event with musical concert that will take place after the opening reception.

This is also our opportunity to thank all of you for being part of this event and supporters of ESSM.

We wish you wonderful days with the ESSM family and enjoy the congress. Let's make it another memorable ESSM event.

CME ACCREDITATION

The 21st Congress of the European Society for Sexual Medicine, Ljubljana, Slovenia, 14 – 16 February 2019 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **24 European CME credits** (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

EACCME® credits

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form.

Breakdown of ECMEC®s per day:

14 February 2019	➔ 8,00
15 February 2019	➔ 8,00
16 February 2019	➔ 8,00

ESSM Prizes and Awards

MEETING AWARDS

The best presentations will be awarded by ESSM's Scientific Committee.

1. Prize for the best presentation on psychosexual, gender and sexology
2. Prize for the best presentation on FSD (clinical)
3. Prize for the best presentation on basic and translational research
4. Prize for the best presentation on MSD (clinical)
5. Prize for best surgical video

Please note that the author of the presentation must be present during the congress in Ljubljana.

THE ESSM PRESTIGE AWARDS

The Executive Committee of ESSM decided to establish two awards to be presented during the annual meetings of the Society:

The ESSM Career Award

This award will be presented to a senior scientist who has made an outstanding contribution in the field. The award winner will be decided by the Executive and Scientific Committees. The award will be presented during the opening ceremony.

The ESSM Award of Excellence

This award is presented annually to a physician or scientist under 40 years of age (either in basic sciences or clinical practice) who has made recent exceptional achievement in the field.

ESSM RESEARCH GRANTS

Every year ESSM grants up to EUR 30,000 each to 3 – 5 research projects with a maximum duration of 18 months. Research Grants are open to all ESSM members who meet the eligibility criteria. The application deadline, eligibility criteria and terms and conditions of the grants can be found on the ESSM website. We will be hearing from some of the previous grant holders in the Ljubljana meeting about their exciting and ground-breaking research.

ESSM BASIC SCIENTIST TRAVEL GRANTS

These grants, which all members of ESSM are welcome to apply for (providing that they meet the eligibility criteria), are intended to support basic scientists wishing to attend the ESSM Annual Congresses. ESSM recognises that basic scientists who are not actively engaged in clinical work in sexual medicine field may have difficulty finding sponsors to attend ESSM Annual Congresses. ESSM will therefore award a free registration and EUR 500 travel expenses to ten of its members towards attending the Annual Congresses. The application deadline, eligibility criteria and terms and conditions of the grants can be found on the ESSM website.

Structure of the Scientific Program

STRUCTURE OF THE SCIENTIFIC PROGRAM

The scientific program is structured according to days. Per day it is structured by time and room. All presenters are listed by name and the title of their presentation.

MASTER LECTURES

Master lectures of 30 minutes will be given by a distinguished and renowned expert and will be devoted to a specific topic of major interest.

DEBATES

During the three days of the congress debates are scheduled for 30 minutes. First a case will be presented by experts and followed by a discussion concerning pro and cons.

ROUND TABLES

These sessions will usually last 90 minutes. Some of these sessions are scheduled for 60 minutes. They will focus on a particular topic and present the very latest data related to it. The round tables will include four or five papers and time for discussion.

WORKSHOPS – LESSONS FROM THE EXPERTS beyond the EBM (Evidence Based Medicine)

Workshops are designed for an interactive exchange of knowledge in the field of Sexual Medicine. During each workshop a short review of the accepted practice will be given following practical tips and tricks for the daily practice. The workshops will be conducted by a prominent, experienced speaker. The number of participants will be limited and according to “first come first served”. For the daily practice, hand-outs will be available online following to the respective workshop.

SEMI LIVE SURGERY COURSES

The semi live surgery courses will last 90 minutes. A panel of selected experts will present surgical videos showing different techniques and approaches and will discuss the details with the participants.

SYMPOSIA IN NATIONAL LANGUAGE

On Thursday, 14 February, symposia in national language will be held by different Affiliated Societies of the ESSM.

PODIUM SESSIONS/ SUBMITTED SURGERY VIDEO SESSION

These sessions will present the best papers/video accepted for the congress and will focus on specific topics presenting the very latest findings in this field. Each session will last between 30 to 90 minutes. Presentations are limited to 4 minutes followed by 2 minutes of discussion. Videos are allocated for 5 minutes presentation and 3 minutes discussion.

POSTERS

Authors have been invited to present their latest research findings or important ongoing research as posters; these are grouped into areas of research by the ESSM scientific committee. The poster exhibition is scheduled from Thursday, 14 to Saturday, 16 February 2019.

Some of the posters have been selected for Highlighted Poster Tours.

HIGHLIGHTED POSTER TOURS

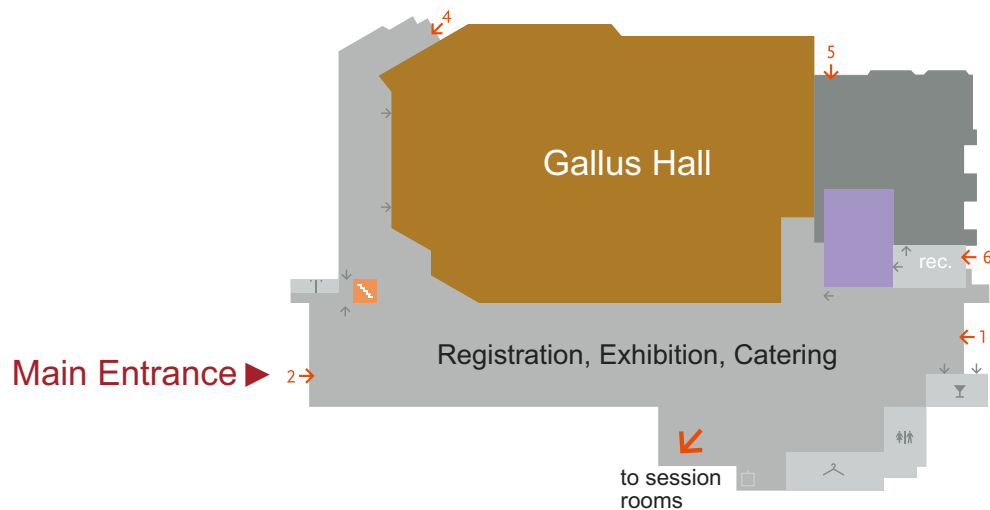

The highlighted poster tours were selected by the Scientific Committee based on a peer review of all abstract submissions. The most interesting posters are grouped by topic and presented in 30-minute moderated tours. Each tour consists of a maximum of 7 posters in the same general field and will take place during the coffee breaks from Thursday to Saturday.

INDUSTRY SPONSORED SESSIONS

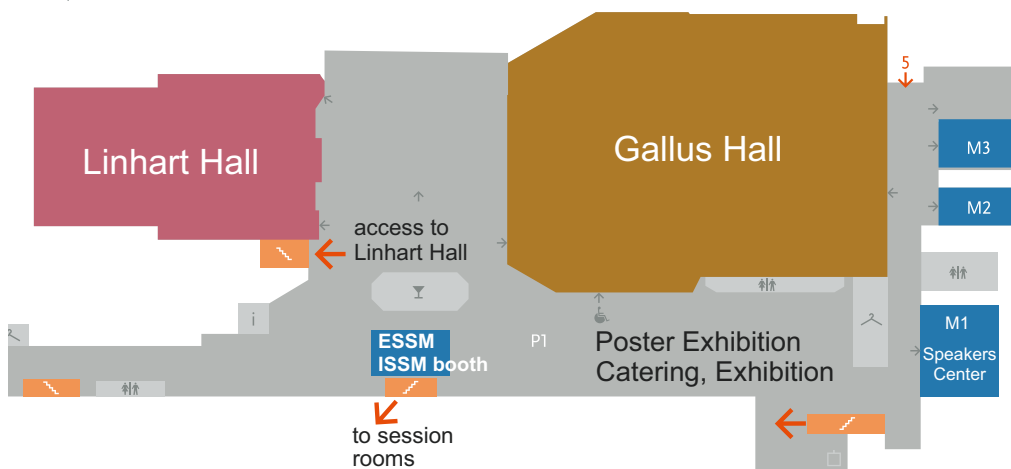

Industry sponsored sessions are organized by the industry in consultation with the scientific committee. They are planned for the congress days from Thursday to Saturday.

Lessons from the experts beyond the EBM (Evidence Based Medicine)

WS-01 WORKSHOP**11:00–12:30****Kosovel Hall****Practical management of erectile dysfunction in men with endocrine disorders**

Chairs: Hartmut Porst, Germany
Michael Zitzmann, Germany

Aims and learning objectives

1. To understand underlying endocrine mechanisms leading to ED, especially
 - ▶ Hypogonadism
 - ▶ Hyperprolactinemia
2. To differentiate these mechanisms from cardiovascular risk factors
 - ▶ Type 2 Diabetes
 - ▶ Smoking
 - ▶ Arterial hypertension, dyslipidemia, obesity

Contents

1. Lecture on Hypogonadism in men in relation to ED and metabolic risk
 - ▶ Case
2. Lecture on Hyperprolactinemia in relation to ED

Lessons from the experts beyond the EBM (Evidence Based Medicine)

WS-06 WORKSHOP**09:00–10:00****Room M3****Motivational interviewing in clinical practice**

Chairs: Yacov Reisman, The Netherlands
 Carla Veiga Rodrigues, Portugal

The aim of the workshop is to provide participants with basic knowledge and skills for the clinical application of Motivational Interviewing (MI) method in Sexual Medicine consultation.

Learning objectives

- ▶ To understand the underlying spirit and approach of MI
- ▶ To recognize the reflective listening responses and differentiate them from other counseling responses
- ▶ To identify possible obstacles in applying MI and how to surpass them
- ▶ To integrate MI tools into a sexual medicine consultation
- ▶ To understand the advantages of MI to motivate patient's towards change and identify its limitations

Contents

A workshop is only the beginning of learning MI. MI is more than a tool, it is a skill to be trained and acquired during time. Motivational interviewing is a collaborative, person-centered form of guiding in order to elicit and strengthen motivation for change. This technique focuses on identifying our patient's ambivalent feelings towards change and use them in order to elicit motivation and energy towards a new behavior set, while avoiding resistance (e.g., confrontation, blame, label) and supporting self-efficacy.

As health care professionals (HCP) working on the 21st century, chronic illness is the core of our care, quite often related to unhealthy behaviors. Patient's adherence to the proposed treatment plans and lifestyle changes necessary to increase their longevity and reduce comorbidities is crucial for better outcomes. MI can assist the HCP to achieve better results and satisfaction among their patients.

During the workshop the background and principles of MI will be introduced and contextualized into the setting of sexual medicine problems in consultation.

ESSM

European Society for
Sexual Medicine

The European Society for Sexual Medicine (ESSM) is a not-for-profit, multidisciplinary, academic and scientific organisation dedicated to male and female sexual health and dysfunction.

Benefits from Becoming an ESSM Member

- ESSM offers its members a permanently updated website with different forums and a monthly update of the whole scientific literature of Sexual Medicine, Andrology and related medical disciplines.
- ESSM provides its members twice a year with the newsletter "ESSM Today" which features the most recent news in the field of Sexual Medicine and focuses on key topics of interest to physicians in the field.
- ESSM has supported the creation of the Multidisciplinary Joint Committee on Sexual Medicine (MJCSM) that is working under the auspices of the European Union of Medical Specialists (UEMS). MJCSM's objectives are to study, promote and harmonize the highest level of Sexual Medicine in Europe – both on the basic and postgraduate level. The MJCSM will determine the standards for training and assessment in Sexual Medicine. Successful candidates will be awarded on behalf of the MJCSM the title of "Fellow of European Committee on Sexual Medicine (FECSM).
- Since 2007 ESSM has offered interested ESSM members the participation in a course of the European School of Sexual Medicine. Since 2013 the course is held in Budapest with the participation of more than 40 students from all over the world, supervised by the School Directors Yacov Reisman and Francesca Tripodi.
- Besides this structured course ESSM offers at its annual congresses both instructional courses related to topics of interest in Sexual Medicine and Master Courses covering the key contents of the ESSM educational program.
- ESSM provides to its members important research grants which all members are welcome to apply for according to eligibility criteria. These are intended to further research into any aspect of Sexual Medicine and are awarded with a maximum of EUR 30.000,00 each for a maximum of 18 months project duration.
- ESSM recognizes that basic scientists who are not actively engaged in clinical work in sexual medicine field may have had difficulty finding funds to attend the ESSM Annual Congresses.
- Fellowship support options are available either on individual application, supported by the National Affiliated Societies or by applying to different initiatives supported by the ESSM and open for members to apply upon invitation.

Take Your Chance – Become a Member of ESSM, Now!
