

ESSM Fellowship- Madrid (Spain)

Fellowship Directors	Dr Juan Ignacio Martinez-Salamanca Dr Ignacio Moncada Dr Enrique Lledo-Garcia
Fellowship contact information	Dr Juan I. Martínez-Salamanca, Attending Urologist, Department of Urology, Hospital Universitario Puerta de Hierro-Majadahonda, Madrid, Spain. jims09@me.com
Fellowship City	Madrid (Spain)
Institutions (4)	1. Hosp Universitario Puerta de Hierro (JIMS) 2. Hospital Universitario La Zarzuela (IM) 3. Hospital General Universitario Gregorio Marañón (ELG) 4. Lyx Instituto de Urologia (JIMS).
Fellow citizenship	All nationalities
Languages must known	English or Spanish
Fellowship duration	3 months
Fellow's requirement	Should have completed Urology residency and willing to devote 75% of his/her future career in Sexual Medicine.
Objectives of Fellowship	<ul style="list-style-type: none"> • Male Sexual Dysfunction • Prosthetic Urology. It will not cover Male Infertility
Research/Paper publication during the fellowship	Not mandatory, but encouraged
Fellowship overview	<p>The fellow will work under all three directors (JIMS, IM and ELG) in Madrid (Spain).</p> <p>The fellow will visit all four institutes based on the availability of surgical cases. A WhatsApp group which includes all three directors and the fellow will be made, and the fellow will be informed accordingly about the upcoming sexual medicine cases. In that way, we expect the fellow to have maximum exposure and benefit from all the three directors.</p> <p>The fellow will always work under the supervision of the director at any point of time. Fellow will not be given any individual responsibility of managing a patient in out-patient department, operating room and in-patient wards.</p> <p>There will be no on-call or emergency duties, so the fellow can use the same time for his academic interests.</p> <p>The fellow will get hands-on training on most of the procedures of Sexual Medicine.</p> <p>These are busy urology practices, with top-class offices, specialty clinics, and surgical centers. An average week consists</p>

	<p>of 5-6 prosthetic urologic and sexual health surgeries.</p> <p>At the end of the fellowship, the fellow will be able to perform surgeries on his own at his primary centre.</p> <p>The fellow will be given full freedom to participate in all Sexual medicine academic meetings and conferences during his fellowship tenure.</p>
Surgical procedures performed	<ul style="list-style-type: none"> • Penile implants (Inflatable and Malleable) • Artificial Urinary sphincter • Double implants • Penile plication • Penile plaque excision and grafting • Penile fracture repair • Vasectomy • Vasectomy reversal • Male Urethral sling • Microscopic subinguinal varicocelelectomy • Scrotoplasty • Pubic lipectomy/ liposuction for buried penis • Urethroplasty
Office procedures	<ul style="list-style-type: none"> • Xiaflex injection in Peyronie’s disease • Penile blocks • Duplex ultrasound • Intracavernous injection • Penile traction therapy device application
Optional	The fellow may participate in non-sexual medicine cases such as Robotic procedures, Uro-oncology and Reconstructive Urology if interested during his/her free time
Housing options	<ul style="list-style-type: none"> • Candidate has to arrange his/her accommodation on his/her own. • We would suggest him/her to do accommodation near to “Moncloa” in Madrid City so as to be convenient to travel to all four centres. • Booking through “Airbnb” would be a suggestion.
Travel	<ul style="list-style-type: none"> • Madrid City is well connected with Metro/Bus. • Car is not compulsory to visit all the centres.
